

Francis Marion University School of Health Sciences Physician Assistant Program

Course:	PA 711 Obstetrics and Gynecology Clerkship
Faculty:	Joseph Bethle, MS, ATC, PA-C
Office Number:	364
Office Phone:	(843) 661-1574
E-mail:	jbethle@fmarion.edu
Office hours:	TBA
Credits:	(4:1-3) (135 hours)
Prerequisites:	Permission of the department

The preceptor and facility where the clerkship will take place will be determined individually in consultation with the Clinical Coordinator.

COURSE GOAL: The goal of this course is to expose the student to a variety of women's health patient encounters in either an inpatient or outpatient setting. Women will be assessed, diagnosed, treated, and evaluated across the lifespan for acute, chronic, emergent, and preventative conditions.

COURSE DESCRIPTION:

This clerkship provides students with experience in managing common gynecologic issues and disorders. Obstetric experience will include labor and delivery plus routine prenatal and postpartum care under the supervision of experienced OB/GYN preceptors.

INSTRUCTIONAL OBJECTIVES Identify basic female reproductive and urinary tract anatomy. (B1.09, B3.03a, B3.03b, B3.04a, B3.04b, B3.04c, B3.04d B3.07a) (C3.01, C3.02, C3.03, C3.04, C3.05)	 STUDENT LEARNING OUTCOMES Provide care for the following numbers of patients over the clinical year. Preventive adult - 40 Emergent adult - 80 Chronic adult - 300 Acute adult - 300 	PA COMPETENCIES 1 through 6	 EVALUATION MECHANISMS End of Rotation Exam Preceptor Evaluation Typhon Encounter Tracking Case Paper
Describe a normal menstrual cycle. (B1.09, B3.03a, B3.03b, B3.04a, B3.04b, B3.04c, B3.04d B3.07a)	Perform a problem-oriented evaluation that includes an appropriate history and physical exam.		

(C3.01, C3.02, C3.03, C3.04, C3.05)	
C3.04, C3.05) Describe basic maternal-fetal physiology and anatomy for each trimester. (B1.09, B3.03a, B3.03b, B3.04a, B3.04b, B3.04c, B3.04d B3.07a) (C3.01, C3.02, C3.03, C3.04, C3.05)	 Perform an accurate age-specific health maintenance history and physical exam, including screening recommendations in current guidelines. Pediatric Adolescent Adult Geriatric
Discuss common endocrine physiology and pathophysiology that impacts the female reproductive system. (B1.09, B3.03a, B3.03b, B3.04a, B3.04b, B3.04c, B3.04b, B3.04c, B3.04d B3.07a) (C3.01, C3.02, C3.03, C3.04, C3.05)	Record all encounters in either SOAP note, comprehensive work-up format and/or other formats associated with Electronic or other means (dictation, voice-recognition, etc.)
Recognize the need for appropriate age- specific healthcare screening procedures. (B1.09, B3.03a, B3.03b, B3.04a, B3.04b, B3.04c, B3.04d B3.07a) (C3.01, C3.02, C3.03, C3.04, C3.05)	Demonstrate knowledge of various resources for screening and health management utilizing current guidelines and evidence-based medicine recommendations.
Identify the appropriate immunization and vaccination schedule for all age groups. (B1.09, B3.03a, B3.03b, B3.04a,	Demonstrate knowledge of immunization/ vaccination schedules, recommendations, contraindications and side effects for all age groups. Provide patient exams for:

P2 0/1h P2 0/1c	• Wall warman awar	
B3.04b, B3.04c,	• Well woman exam	
B3.04d B3.07a)	Gynecological patient

Uncomplicated Pregnancy	
 Normal labor/delivery 	
 Prenatal diagnosis/care 	
Francis Marion University PA students are responsible for all of the	e diseases/disorders
listed in the learning objectives for the rotation. The students are also	so expected to read
and understand the etiology and pathophysiology, signs/symptoms,	lab/diagnostic
findings, medical management, and complications of the listed dise	ases. It is important to
note, that even though many of the medical disorders are listed in the	nis clinical syllabus;
the complete list of medical disorders for the rotation are those selection	cted by the National
Commission on Certification of Physician Assistants (NCCPA) and	l include the topic list
from the Physician Assistant Education Associated (PAEA) end of	rotation exams. Please
refer to the link below:	
http://www.endofrotation.org/exam/sample-exam/	

Understand the importance of preforming clinical procedures by guidelines using aseptic or sterile technique for best patient outcomes. (B1.09, B3.03a, B3.03b, B3.04a, B3.04b, B3.04c, B3.04d B3.07a) (C3.01, C3.02, C3.03, C3.04, C3.05)	 Perform or assist in the following office procedures: Administration of local anesthesia (10 encounters) Assist (actually participate) in surgery (15 encounters) Auscultate fetal heart sounds (10 encounters) Perform culture collection (blood, throat, wound, vaginal) (at least 15 encounters) Demonstrate aseptic technique (25 encounters) EKG interpretation (20 encounters) Explain medications to patients (20 encounters) Explain procedures to patients (25 encounters) Injections (10 encounters) Pelvic examinations (5 encounters) Rectal exam (5 encounters) Suturing (20 encounters) Well-child examination (15 encounters) Radiologic studies (interpretations of skeletal films) (15 encounters)
--	---

PA GRADUATE CLINICAL COMPETENCIES:

The following PA clinical competencies were developed the National Commission on Certification of Physician Assistants (NCCPA), Accreditation Review Commission on Education for the Physician Assistant (ARC-PA), American Academy of Physician Assistants (AAPA), and Physician Assistant Education Association (PAEA).

1. Medical knowledge - includes an understanding of pathophysiology, patient presentation, differential diagnosis, patient management, surgical principles, health promotion, and disease prevention. Our graduates must demonstrate core knowledge about established and evolving biomedical and clinical sciences and the application of this knowledge to patient care in their area of practice. Our graduates are

expected to demonstrate an investigatory and analytic thinking approach to clinical situations. Graduates of our training program are specifically expected to

- A. Understand etiologies, risk factors, underlying pathologic processes, and epidemiology for medical conditions
- B. Identify signs and symptoms of medical conditions
- C. Select and interpret appropriate diagnostic or lab studies
- D. Manage general medical and surgical conditions to include understanding the indications, contraindications, side effects, interactions, and adverse reactions of pharmacologic agents and other relevant treatment modalities
- E. Identify the appropriate site of care for presenting conditions, including identifying emergent cases and those requiring referral or admission
- F. Identify appropriate interventions for prevention of conditions
- G. Identify the appropriate methods to detect conditions in an asymptomatic person
- H. Differentiate between the normal and the abnormal in anatomic, physiological, laboratory, and other diagnostic data
- I. Appropriately use the history, physical findings, and diagnostic studies to formulate a differential diagnosis
- J. Provide appropriate care to patients with chronic conditions.
- 2. Interpersonal and communication skills encompass verbal, nonverbal, and written exchange of information. Our graduates must demonstrate interpersonal and communication skills that result in effective information exchange with patients, patients' families, physicians, professional associates, and the health care system. Graduates of our training program are specifically expected to
 - A. Create and sustain a therapeutic and ethically sound relationship with patients
 - B. Use effective listening, nonverbal, explanatory, questioning, and writing skills to elicit and provide information
 - C. Appropriately adapt communication style and messages to the context of the individual patient interaction
 - D. Work effectively with physicians and other health care professionals as a member or leader of a health care team or other professional group
 - E. Apply an understanding of human behavior
 - F. Demonstrate emotional resilience and stability, adaptability, flexibility, and tolerance of ambiguity and anxiety
 - G. Accurately and adequately document and record information regarding the care process for medical, legal, quality, and financial purposes.
- **3. Patient care** includes age-appropriate assessment, evaluation, and management. Our graduates must demonstrate care that is effective, patient-centered, timely, efficient, and equitable for the treatment of health problems and the promotion of wellness. Graduates of our training program are specifically expected to
 - A. Work effectively with physicians and other health care professionals to provide patient-centered care
 - B. Demonstrate caring and respectful behaviors when interacting with patients and their families
 - C. Gather essential and accurate information about their patients
 - D. Make informed decisions about diagnostic and therapeutic interventions based on patient information and preferences, up-to-date scientific evidence, and clinical judgment
 - E. Develop and carry out patient management plans
 - F. Counsel and educate patients and their families
 - G. Competently perform medical and surgical procedures considered essential for general practice
 - H. Provide health care services and education aimed at preventing health problems or maintaining health.

- 4. **Professionalism** is the expression of positive values and ideals as care is delivered. Foremost, it involves prioritizing the interests of those being served above one's own. Our graduates must know their professional and personal limitations. Professionalism also requires that PAs practice without impairment from substance abuse, cognitive deficiency, or mental illness. Our graduates must demonstrate a high level of responsibility, ethical practice, sensitivity to a diverse patient population, and adherence to legal and regulatory requirements. Graduates of our training program are specifically expected to demonstrate
 - A. Understanding of legal and regulatory requirements, as well as the appropriate role of the PA
 - B. Professional relationships with physician supervisors and other health care providers
 - C. Respect, compassion, and integrity
 - D. Responsiveness to the needs of patients and society
 - E. Accountability to patients, society, and the profession
 - F. Commitment to excellence and on-going professional development
 - G. Commitment to ethical principles pertaining to provision or withholding of clinical care, confidentiality of patient information, informed consent, and business practices
 - H. Sensitivity and responsiveness to patients' culture, age, gender, and disabilities
 - I. Self-reflection, critical curiosity, and initiative.
- **5. Practice-based learning and improvement** includes the processes through which clinicians engage in critical analysis of their own practice experience, medical literature, and other information resources for the purpose of self-improvement. Our graduates must be able to assess, evaluate, and improve their patient care practices. Graduates of our training program are specifically expected to
 - A. Analyze practice experience and perform practice-based improvement activities using a systematic methodology in concert with other members of the health care delivery team
 - B. Locate, appraise, and integrate evidence from scientific studies related to their patients' health problems
 - C. Obtain and apply information about their own population of patients and the larger population from which their patients are drawn
 - D. Apply knowledge of study designs and statistical methods to the appraisal of clinical studies and other information on diagnostic and therapeutic effectiveness
 - E. Apply information technology to manage information, access online medical information, and support their own education
 - F. Facilitate the learning of students and/or other health care professionals
 - G. Recognize and appropriately address gender, cultural, cognitive, emotional, and other biases; gaps in medical knowledge; and physical limitations in themselves and others.
- 6. Systems-based practice encompasses the societal, organizational, and economic environments in which health care is delivered. Our graduates must demonstrate an awareness of and responsiveness to the larger system of health care to provide patient care that is of optimal value. Our graduates should work to improve the larger health care system of which their practices are a part. Graduates of our training program are specifically expected to
 - A. Use information technology to support patient care decisions and patient education
 - B. Effectively interact with different types of medical practice and delivery systems
 - C. Understand the funding sources and payment systems that provide coverage for patient care
 - D. Practice cost-effective health care and resource allocation that does not compromise quality of care
 - E. Advocate for quality patient care and assist patients in dealing with system complexities
 - F. Partner with supervising physicians, health care managers, and other health care providers to assess, coordinate, and improve the delivery of health care and patient outcomes
 - G. Accept responsibility for promoting a safe environment for patient care and recognizing and correcting systems-based factors that negatively impact patient care

H. Apply medical information and clinical data systems to provide more effective, efficient patient care

I. Use the systems responsible for the appropriate payment of services. (adapted from ACGME, 2002, <u>http://www2.paeaonline.org/index.php?ht=d/sp/i/34581/pid/34581</u>)

Organ Systems and Disease Categories	Knowledge and Skill Areas	
Cardiovascular System	 History Taking and Performing Physical Examinations	
Dermatologic System	 Using Laboratory and Diagnostic Studies	
Eyes, Ears, Nose and Throat	 Formulating Most Likely Diagnosis	
Endocrine System	 Health Maintenance	
Gastrointestinal System and Nutrition	 Clinical Intervention	
Genitourinary System	 Pharmaceutical Interventions	
Hematologic System	 Applying Basic Science Concepts	
Infectious Diseases

ORGAN SYSTEMS, KNOWLEDGE AND SKILL AREAS:

Instructional methods: Preceptorship

Student Registration to Course through Blackboard:

http://highered.mheducation.com/olc2/dl/866234/Connect_Blackboard_Student_Quick_Tips_0914.pdf

Evaluation

The clinical clerkship grade will be based on:

- 50% End of Rotation Exam
- 35% Preceptor Evaluation
- 10% Typhon Encounter Tracking
- 5% Case Paper

School of Health Sciences Graduate Grading Scale:

Alphabetic		Raw Score
А	Excellent	93-100
B+	Very Good	89-92
В	Good	85-88
C+	Fair	81-84
С	Poor	77-80
F	Fail	76 or below

Rounding

Per program policy, only final grades will be rounded and this is programmed into the Blackboard Gradebook. Final grades of 0.50 or greater will be rounded up to the next whole numeric value. Therefore, a 76.50 is the minimum grade needed to pass this course, as this is rounded to a 77. Exam and quiz scores will not be rounded and will be entered in grade book in Blackboard to the nearest hundredth of a percent.

Attendance Policy

Students are expected to come to all classes and labs. If you cannot come to class for any reason please contact the instructor. Students missing more than 4 lectures or 2 labs may be dismissed from the course with an F.

Examination Policy

Students must contact the Academic Coordinator in advance if they will miss a scheduled examination to arrange for a rescheduled exam. Failure to do so will result in a grade of zero (0) for the exam unless there is a

significant extenuating circumstance. Any exam missed in courses taught by a faculty member from the Department of Nursing will be completed at the end of the semester. Any deviation from this practice may be brought to the Student Affairs and Progression Committee for review.

Cell Phone Use

The use of cell phones is prohibited during classes or testing. All phones must be silenced to avoid disruption in the classroom. In the event of an emergency in which a student must receive an important call, notify the instructor prior to the start of class, sit close to the door of the room and then quickly answer your phone and excuse yourself from the room to take the call.

E-mail

Electronic mail is an essential component of communication between the faculty, administration, and students; therefore, all students are required to have an active e-mail account. E-mail responses to faculty are expected with 24 hours. In return, faculty will mail students within 24 hours with the exception of weekends and holidays. E-mail to all faculty and students in the program must be addressed professionally with a proper salutation, complimentary closing, and signature. If any of the proper ingredients are lacking, the e-mail will be returned with a note that states "please address this e-mail in a professional manner." Each e-mail should address one issue.

Phone Usage and Messaging

Students are only to call preceptor for an emergency clinical situation. Faculty will not use verbal phone conversations or texting to discuss any issues with learner. Contacting faculty (other than an emergency clinical issue) must be done by e-mail.

Social Networking Policy

Students are encouraged to use their most professional judgment in regard to internet social networking sites. Information and /or pictures about the FMU PA program, faculty, other students, clinical experiences, and patient information, in any format, is not appropriate on social networking sites. Violations of this policy will result in dismissal from the program for lack of maintaining professional standards.

Student Responsibilities

Each student is responsible for the proper completion of his/her academic program, for familiarity with the *FMU Catalog, the University Student Handbook*, and the *PA Student Handbook (current editions)*. Each student is responsible for maintaining the grade point average required, and for meeting all degree requirements. The academic advisor will counsel, but the final responsibility for a successful college career rests with the learner.

Guidelines for Faculty Appointments

All faculty have posted office hours and students should do their best to schedule appointments at those times. If those times are not feasible the learner may request the faculty to meet at another time.

Statement of Honor

Upon becoming a member of the Francis Marion University Community, students are expected to behave with honor and integrity in a manner that reflects the values of the institution. Students must interact in a civil manner, both in and out of the classroom, treating all persons and property with respect. **Upon enrollment at Francis Marion University, students pledge not to lie, cheat, or steal.** They also pledge not to violate the FMU Honor Code or any civil/criminal laws. Inasmuch as honor and integrity serve to define one's character,

the university community expects that students will not tolerate the aforementioned behaviors in others and will exhibit reasonable judgment in reporting students who violate the FMU Honor Code.

The Honor Pledge

"As a student at Francis Marion University, I pledge to obey the FMU Honor Code and civil and criminal laws. I pledge not to lie, cheat, or steal. I will encourage others to respect the Honor Code and will exhibit reasonable judgment in reporting students who violate it."

Services for Students with Disabilities

The Director of Counseling and Testing is responsible for coordinating services for students with disabilities. The director collaborates with students in determining reasonable accommodations and acts as a liaison between students and faculty/administration on concerns relating to classroom accommodations. The Director of Counseling and Testing is also available to meet with prospective students to discuss services available at Francis Marion University. The director can be reached at 843-661-1841.
