Life Support: Health Care Provider certification which covers the life span, infant to adult. All students are also required to provide the immunization records including hepatitis B, a proof of health insurance coverage, and submit to a background check and a drug test. All

of these things must be completed prior to a student enrolling in clinical courses.

156

^{*}Students who do not have the math skills to take chemistry in the first semester of their freshman year should consider attending summer school to improve their math skills before enrolling in Chemistry 101.
