Narrative of incident - if needed:

way even after I told him repeatedly that I did look
before I pulled out & there was no one coming. I was
proceeding to cross the parking lot & go into the gate
(bars) so my roommates & I could unload our groceries at
the door when Seymour came flying down & T-boned my
car which is now ~~inabile~~ immobile. The athlete went
to get his friends out of the apartment who also teamed
up with the officer and laughed at my roommates
& I because they said I
would be at fault. I really did not appreciate the
officer belittling my side of the story & telling me that
Seymour speeding did not matter. He blamed everything
on me & thought it was funny that my insurance would
have to pay for damages. I am a graduating senior at
Francis Marion Marion & feel as though I pay money to
go to this school just like anyone else & speeding in a
10 m.p.h zone should matter. The officer even took
word when he told the officer we were
okay & we did not need medical help. If you see
my car & pictures of the incident you would see there
is definitely a problem with that notion. My friends
who were in pain had to request the ambulance.
