

ATTENTION
MATHEMATICS MAJORS AND MINORS
2018 ACADEMIC SEMINAR IN WASHINGTON, D.C.
MAY 11-17, 2018

The 2018 Washington, D.C. Academic Seminar is a six-day long trip to the nation's capital funded, in part, by an FMU REAL grant. Students and faculty from political science, mathematics and nursing will explore historic sites and neighborhoods in Washington, as well as meet and learn from a variety of speakers working in government, the media, business, and lobbying.

REAL grant funding will help pay for up to 4 mathematics students (majors or minors) to participate. Students do NOT have to pay any transportation or room costs. Students will be housed in apartments at The Washington Center's new residential and academic facility located at 1005 3rd Street, NE, only blocks from Capitol Hill and Union Station. Students are responsible for the cost of their meals during the trip and a \$100 non-refundable registration fee.

See Dr. David White (FH 129) for an application. Applications are due to Dr. White no later than 4:00 p.m., Tuesday, January 30th. Preferences for selection includes: a mandatory letter expressing why you are interested in attending the 2018 FMU Academic Seminar in Washington, and what you believe you can contribute to the experience; grade point average; and faculty references. Students graduating in May 2018 are not eligible. Students selected to attend will be notified by Monday, February 5th.

Students wanting to learn more about this opportunity, or planning to apply, should attend one of the following trip interest meetings:

Thursday, January 18, FH 140A, 3:45 p.m.

Monday, January 22, FH 140A, 3:45 p.m.

YES, PRACTICALLY A FREE TRIP TO WASHINGTON!
