

Password Manager Instructions

You will need to reset your password every 120 days (an email reminder will be sent).

Once you are in Password Manager, follow these instructions:

1. Click **Reset Password**.
2. You will then be prompted for a **user/account name**. Your username is: First initial, last name, last four of your student identification number.
Example: jsmith1234
3. Leave the domain as FMUS. It is the only option. Click **Next**.
4. You will be prompted with **two of three** questions:
 - The format for the **birthday** is one long string of numbers without any spaces or special characters.
Example: mmddyyyy
 - The format for the **student ID** number is the entire number including the four zeros in front.
Example: 000012345
 - The format for the **last 5 of your social** is a string of 5 numbers.
Example: 54321
5. Once you have answered the security questions successfully, you will be prompted for a **new password** that meets the following criteria:
 - ✓ 8-20 characters long
 - ✓ It cannot be a password you have ever used before
 - ✓ It needs at least one capital letter, one number, and a special character
6. Leave the Unlock My Account box checked and click **Next**.
7. If the password was successfully changed you will see this:

"Your password has been changed successfully, please try to logon in a few minutes.
User account has been unlocked successfully."

Your password has now been reset. You will use this password for:

- ✓ **FMU Email (Swampfox Mail / Gmail)**
- ✓ **Wireless Network Connection**
- ✓ **Pay for Print Login**
- ✓ **Library Database Access (off campus)**
