About the Program

The purpose of the library liaison program is to develop collaborative relationships between librarians and instructors in order to provide appropriate services and resources to meet the information needs of the Francis Marion University population.

In other words? You have a single person to call in the library for any question, issue, or idea.

What Can A Liaison Do?

- Provide library orientations for new faculty
- Keep faculty informed about new resources added to our library
- Assist in developing research assignments
- Develop **LibGuides** on broad subject areas, or a specific class/ assignment
- Assist with accreditation preparation
- Provide class-specific or assignment-specific library training for your class or meeting
- Help your department identify and select new resources for the library
