French « Baccalauréat »

Created in 1808, the « baccalauréat » serves a two-fold function in the French system of education: it concludes secondary school studies and grants access to higher education. The « baccalauréat » is the first university grade. (French Ministry of Education Code, Book III, Chapter 4, Article D344-1; http://www.education.gouv.fr/)

A general baccalauréat examination, a national examination regulated by the same governmental organisation throughout the country, certifies students’ level in General Education. Thus baccalauréat diplomas issued officially state students’ results achieved for each GE module. This is why these modules are not included into a bachelor’s degree curriculum in France.

The baccalauréat is an obligatory condition to enter ESCEM Bachelor’s programme, which guarantees that each ESCEM Bachelor student has satisfied the GE requirements.

Office Hours: 1.30 – 3.00 pm Monday; 2.00 – 3.00 pm Tuesday; and by appointment
Email: mwturner@fmarion.edu
Ph.: 661-4695

Course Description:
All of us have philosophical beliefs, but we do not often recognize these beliefs as philosophical. One reason that we are not aware of this fact is that many of these beliefs lie at the very foundations of our own thinking, such that their truth seems obvious to us. One of the purposes of philosophy is to examine the justification that we have for some of these foundational beliefs. As such, it is not merely an exercise in stating what we believe, but an investigation and evaluation of the grounds we have for believing what we do. This course is an introduction into some of the fundamental issues in philosophical thinking, as well as an inquiry into the nature of philosophical thinking itself.

Textbooks:
Plato. Five Dialogues, 2d ed. Hackett, 2002

Evaluation:
2 Exams (25% Each)
4 Short Writing Assignments (12.5% each)

About grading:
My scale: 90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D, 59 and lower = F.

‘C’ represents work that is average. I give this grade to work that completes the course requirements. ‘A’s’ and ‘B’s’ are reserved for work that demonstrates more effort, depth, and polish. I am happy to work with you to get the grade that you want. Keep in mind that your grade is a function of your work.

Late Assignments:
Assignments are due at the beginning of class. For each calendar day (note: not business day) that an assignment is late, I will deduct 5 points from the overall grade of the assignment.

Academic Honesty:
I have a zero-tolerance policy to incidents of academic dishonesty. This includes cheating and plagiarism. Any instance of academic dishonesty will result in a zero for the assignment, with no possibility of making it up, as well as the appropriate administrative documentation. Multiple instances will result in failure for the course. Please refer to the student handbook (pp. 134-136) for more specific information about Francis Marion’s policy regarding academic honesty.
**Cell Phones & Technology:**

You don’t need a computer or phone in the class. Please don’t use them while in class. Use of such devices is a distraction to the class as a whole. Rest assured, the world will still be there after class is over.

**Disability Services:**

If you are affected by the impact of a disability, and require an accommodation, please feel free to come and talk to me in private to discuss your situation. If you are entitled to extra time for your examination, you must notify me one week in advance of the scheduled exam.

**Exams:**

Exams will be taken in class. A blue book is required for the exams. Prior to the date of the exam, each of you must bring to me a blank blue book. These books will then be distributed on the day of the exam. If you do not bring me a blue book prior to the date of the exam, then you may not take the exam.

**Attendance Policy:**

I expect you to come to class regularly. I have learned from experience that students who come to class infrequently perform less well on assignments and exams. This course is not about simply repeating back what you find in the textbooks. In fact, it is usually difficult to glean what is important in these texts on a cursory reading. So, it is in your best interest to come to class.

**Writing Assignments:**

The writing assignments will follow a specific format. I will discuss the format in more detail as the first one approaches, but in general, you will be asked to submit a short argument defending a thesis in outline form to me. I will then develop two or three objections to your thesis, which you must then answer. Both parts must be completed in order for you to earn a grade on the assignment.

Writing assignments may be submitted either on paper (typed, of course), or as an email attachment. Do not send inline text; I will not grade it. If you don’t know how to send a document as an email attachment, I would advise learning.

I will hold off on giving specific assignment due dates, because I want to be sure to cover a certain amount of material before assigning them. You will complete two before the midterm, and two after the midterm.

**Exam Schedule:**

Midterm: Friday, October 7, in class
Final: Wednesday, December 7, 3.00 – 5.00

Disability Services:

If you are affected by the impact of a disability, and require an accommodation, please feel free to come and talk to me in private to discuss your situation. If you are entitled to extra time for your examination, you must notify me one week in advance of the scheduled exam.
Cell Phones & Technology:

You don’t need a computer or phone in the class. Please don’t use them while in class. Use of such devices is a distraction to the class as a whole. Rest assured, the world will still be there after class is over.

Note on Homework Assignments:

Here’s a piece of advice about homework. The exercises may often seem tedious, redundant, and boring. This thought is misguided. The purpose of homework is not to give you busywork, but to give you practice for the exam. You should do the homework until you get it right. You don’t learn to shoot 3-point shots in basketball by standing under the hoop complaining how far it is from the 3-point line to the basket. Past experience has proven to me that students who do less homework perform less well on exams, and since the exams constitute an enormous portion of your grade, it behooves you to prepare for them the best that you can, i.e. do the homework.

Tentative Schedule of the Class:

Part I – Chapters 1 & 6 [2]

Exam #1: Tuesday, September 20

Part II – Chapter 7 [3]

Exam #2: Thursday, October 13 (7.1 – 7.4)
Exam #3: Thursday, November 10 (7.5 – 7.6)

Part III – Chapter 8 [4]

Exam #4: Final Exam: Thursday, December 8, 3.00 – 5.00 pm

Ph.: 661-4695

Course Description:
Philosophy as we know it today, was born in the ancient Greek world. In fact, the early 20th century philosophy A.N. Whitehead once said that all of Western philosophy was simply a collection of footnotes to Plato. While Whitehead was perhaps overstating it, it does remain true that the problems the ancient Greeks addressed remain with us today as puzzles about some of life’s deepest questions: What do we know? What is real? How do we ensure that we are living the good life? This course will give you an introduction to these ancient philosophers. We will explore how they understood the world (for there are significant differences in their worldviews from ours), as well as explore their different solutions to philosophical problems. In particular we will be concerned with ancient metaphysical theories (theories about reality and being), epistemology (theory of knowledge, and in particular the role that philosophy plays in acquiring knowledge, and ethics (how to live, and what kind of society is the best).

Textbooks:

However, I have learned from experience that students who come to class infrequently perform less well on assignments and exams. Therefore, it is in your best interest to come to class.

Tentative Schedule of Assignments:

I won’t give out a distinct schedule of readings, as we will go through them at the pace that suits us best. But in the interest of providing some structure to the course, we’ll read the texts in the following order:

Selections from the Presocratics
- The Milesians
- Heraclitus
- Parmenides
- The Pluralists
- Atomism
- The Sophists

Plato
- Apology
- Gorgias
- Meno
- Symposium
- Republic

Aristotle
- Physics
- De Anima
- Metaphysics
- Nicomachean Ethics
  (We will use the Lear text throughout the Aristotle section)

Hellenistic Philosophy
- Selections TBD.

The Weston text will be used intermittently throughout the course.

Email: mwturner@fmarion.edu
Ph.: 661-4695

Course Description:
Although the course is entitled “Modern Philosophy”, the name is somewhat misleading. Specifically, when philosophers refer to this era of philosophy, they are speaking about the time from the end of the Renaissance up through the Age of Reason, or the Enlightenment. The reason that philosophers speak of this era in this manner is because the philosophical work of these centuries laid the foundation for much subsequent philosophy. This period in intellectual history saw the rise of modern science – best captured in figures like Galileo, Newton, and Kepler – as well as modern religion, namely the Protestant Reformation and subsequent Catholic Counter-Reformation. With this new science, humans were forced to understand themselves and their place in the world differently that they did in the medieval and ancient eras. The philosophy of this time reflects a working out of many of these problems. In particular, philosophers were concerned with such fundamental questions as the nature of our knowledge, the nature of reality, the nature of the self, the question over whether we have free will, the nature and existence of God, and the relationship between God and the natural world, that is the world as it was being described by science. This semester we will study six (if we have time, seven) of the most influential philosophers of this period. Following this course, you will not only have an understanding of the issues that divided philosophers of the day from each other and their own intellectual heritage, but you will also be ready to tackle one of the greatest philosophers of the Western world, Immanuel Kant.

Textbook:

Evaluation:

2 Exams (25% Each)
Papers (50% total) – Either:
   a.) 2 medium sized papers (one due before the midterm, one on the last day of class)
   b.) 1 longer research paper (due on the last day of class)

About grading:

My scale: 90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D, 59 and lower = F.

‘C’ represents work that is average. I give this grade to work that completes the course requirements. ‘A’s’ and ‘B’s’ are reserved for work that demonstrates more effort, depth, and polish. Prof. Matthew Turner
Office: 234 FH
Email: mwturner@fmarion.edu
Phone: 661-4695
Office Hours: Monday 1-2 pm, Tuesday 1-2 pm

Course Description:

Suppose, for a moment, that life has no meaning. What should we do with ourselves? What is the point of engaging in any sort of activity or project, for example, a relationship, an education, or a career? If there isn’t any point or purpose to these projects, then why should we waste so much energy in pursuing them? Although we may speculate about what happens to us after we die, no one really knows what happens. And if death is the ultimate end, then our lives appear to be just “a tale told by an idiot, full of sound and fury, signifying nothing.” But many of us will claim, however, that there is meaning and purpose to these projects – they do have value. But what gives them their value? According to the existentialist, there are many traditional sources of value for us: family, religion, country, and culture. Yet many of these sources of value are arbitrary – they are imposed on us, merely by virtue of the fact that we happened to be born into a community that holds those values. So what makes these values the ones to hold? Existentialists argue that the real values one ought to hold cannot be imposed from outside, but rather must be chosen by us. A problem then arises: if value must be determined by each of us individually, and external sources of value are suspect, what is there to guide us in deciding what to do with ourselves? It is as if we are told to construct a machine that has a function without being told what that function is or given the material necessary to construct it. The goal of the existentialists is to provide us with a blueprint for constructing our own set of values and thereby giving our own lives significance and meaning. By focusing on the experience of the existing individual, rather than abstracting away from that individual, existentialists offer a way of understanding our own lives and what we should do with them. Although at times, the existentialists appear to portray a world that is cold, harsh, and gloomy, ultimately existentialism is a philosophy of affirmation. In particular we will address perennial philosophical questions concerning God’s existence, human freedom, the problem of evil, and what kind of morality we ought to follow. The course will take an interdisciplinary approach. Due to the personal nature of existentialism, there is no one method of communication that completely represents the view. We will read fictional works and philosophy texts, as well as watch some films. Reading will include works from Kafka, Dostoevsky, Kierkegaard, Nietzsche, Camus, Sartre, as well as shorter selections from other existentialist writers.

Catalog description:

Purpose: 1. For Whom (generally?) PRS Minor/Collateral students, General Education
2. What should the course do for the student? This course will provide students knowledge of the main theoretical positions in philosophical ethics, and then provide opportunities to apply those theories to real ethical issues

Teaching method planned: Lecture/Discussion

Textbook and/or materials planned (including electronic-multimedia): See attached syllabus

Course Content: See attached syllabus
Ethics
Philosophy 306
T/Th 11.20 am – 12.35 pm

Course Information:

Instructor: Dr. Matthew Turner
Office: FH 234
Office Hours:
Email: mwturner@fmarion.edu
Phone: 661-4695

Course Description:

In the context of philosophy, ethics is the area that studies rational approaches to questions of value. While most of us believe that there is a difference between right and wrong actions, or good and bad morals, far fewer of us can cogently spell out just what constitutes that difference. Further, ethical questions are bound – for better or worse – to deep seated emotional, religious, spiritual, traditional and other concerns. Our task in this course will be to better understand the foundations of various positions on ethical issues, all in an effort to probe the theoretical foundations of our own approach to judging the morally right and wrong. We will begin by considering the major theoretical approaches to ethics, before turning directly to particular issues in practical ethics.

Textbook:
(required)

There is also important course material on the Blackboard website. Please go to http://blackboard9.fmarion.edu.

Evaluation:

2 Exams (20% Each)
5 Short Writing Assignments (10% each)
Attendance/Participation (10%)

About grading:

My scale: 90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D, 59 and lower = F.

‘C’ represents work that is average. I give this grade to work that completes the course requirements. ‘A’s’ and ‘B’s’ are reserved for work that demonstrates more effort, depth, and polish. I am happy to work with you to get the grade that you want. Keep in mind that your grade is a function of your work.

Academic Honesty:

I have a zero-tolerance policy to incidents of academic dishonesty. This includes cheating and plagiarism. Any instance of academic dishonesty will result in a zero for the assignment, with no possibility of making it up, as well as the appropriate administrative documentation. Multiple instances will result in failure for the course. Please refer to the student handbook (pp. 134-136) for more specific information about Francis Marion’s policy regarding academic honesty.

Disability Services:
If you are affected by the impact of a disability, and require an accommodation, please feel free to come and talk to me in private to discuss your situation.

**Exams:**

Bring a blue book for exams.

**Attendance Policy:**

I expect you to come to class regularly. I do not have a policy that states that a certain number of absences results in immediate failure. However, I have learned from experience that students who come to class infrequently perform less well on assignments and exams. Therefore, it is in your best interest to come to class.

**Cell Phones:**

Put all cell phones away during class time. If I see you with a cell phone out during class, I will mark you absent for the day.

**Schedule:**

Our exact schedule of readings will depend on the pace of the class, but we will cover the following material in approximately this order (titles in square brackets will be added if I feel we have enough time):

**Historical Sources**

Plato, *Euthyphro*, pp. 5 – 16  
Butler, *Fifteen Sermons*, pp. 228 – 243  
Kant, *A Groundwork for the Metaphysics of Morals*, pp. 280 – 318  
Mill, *Utilitarianism*, pp. 327 – 361  
[Camus, *The Myth of Sisyphus*, pp. 397 – 405]  
[Sartre, *Existentialism is a Humanism*, pp. 406 – 412]

**Modern Ethical Theory**

[Chapters 16 – 43 represent important developments in 20th century ethical thinking. When we get closer, I will decide if the class would be into pursuing these topics, given our time and your interests.]

**Contemporary Moral Problems**

I would like to cover the following chapters: 44 – 51. There are later chapters that deal with further particular moral issues. We can include them as time and interest allow.

**Writing Assignments Due:**
#1: Thursday, September 9
#2: Thursday, September 30
#3: Thursday, October 28
#4: Thursday, November 11
#5: Monday, December 6

**Exam Schedule:**

Midterm: Thursday, October 7
Final: Friday, December 10, 3.00 – 5.00 pm
When completed, forward to the Office of the Provost. 9/03

FRANCIS MARION UNIVERSITY: DESCRIPTION OF PROPOSED NEW COURSE or MODIFICATION OF AN EXISTING COURSE

Course Information:  
Instructor: Matthew Turner  
Office: FH 234  
Office Hours: 1.30 – 3.00 pm Monday; 2.00 – 3.00 pm Tuesday; and by appointment  
Email: mwturner@fmarion.edu  
Ph.: 661-4695

Course Description:  
The medieval period in European history represents a significant transition in the arc of Western thought. As the power of Rome, symbol of the ancient world, declined, the new power of Christianity spread throughout the Northern Mediterranean portion of the Empire, while Islam began to flourish in the Middle East and Northern Africa. Western history has traditionally focused on the rise of the papacy and its dominance in Europe throughout the middle ages, and histories of philosophy have tended to do the same – focusing primarily on Christian, Catholic philosophy. This is not entirely accurate, however, as much of the West’s intellectual development was dependent on contact with thinkers from the Muslim as well as with the Judaic world. This course will be a survey of some of the most important thinkers of these traditions, with an emphasis on how the shared idea of monotheism is developed in different ways by different cultures.

Textbooks:  
Hyman, Walsh, and Williams. Philosophy in the Middle Ages, 3rd ed. Hackett 2010

Evaluation:  
2 Exams (25% Each)  
4 Short Writing Assignments (12.5% each)

About grading:  
My scale: 90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D, 59 and lower = F.  
‘C’ represents work that is average. I give this grade to work that completes the course requirements. ‘A’s’ and ‘B’s’ are reserved for work that demonstrates more effort, depth, and polish. I am happy to work with you to get the grade that you want. Keep in mind that your grade is a function of your work.

Late Assignments:  
Assignments are due at the beginning of class. For each calendar day (note: not business day) that an assignment is late, I will deduct 5 points from the overall grade of the assignment.

Academic Honesty:  
I have a zero-tolerance policy to incidents of academic dishonesty. This includes cheating and plagiarism. Any instance of academic dishonesty will result in a zero for the assignment, with no possibility of making it up, as well as the appropriate administrative documentation. Multiple instances will result in failure for the course. Please refer to the student handbook (pp. 134-136) for more specific information about Francis Marion’s policy regarding academic honesty.

Cell Phones & Technology:
You don’t need a computer or phone in the class. Please don’t use them while in class. Use of such devices is a distraction to the class as a whole. Rest assured, the world will still be there after class is over.

Disability Services:

If you are affected by the impact of a disability, and require an accommodation, please feel free to come and talk to me in private to discuss your situation. If you are entitled to extra time for your examination, you must notify me one week in advance of the scheduled exam.

Exams:

Exams will be taken in class. A blue book is required for the exams. Prior to the date of the exam, each of you must bring to me a blank blue book. These books will then be distributed on the day of the exam. If you do not bring me a blue book prior to the date of the exam, then you may not take the exam.

Attendance Policy:

I expect you to come to class regularly. I have learned from experience that students who come to class infrequently perform less well on assignments and exams. This course is not about simply repeating back what you find in the textbooks. In fact, it is usually difficult to glean what is important in these texts on a cursory reading. So, it is in your best interest to come to class.

Writing Assignments:

The writing assignments will follow a specific format. I will discuss the format in more detail as the first one approaches, but in general, you will be asked to submit a short argument defending a thesis in outline form to me. I will then develop two or three objections to your thesis, which you must then answer. Both parts must be completed in order for you to earn a grade on the assignment.

Writing assignments may be submitted either on paper (typed, of course), or as an email attachment. Do not send inline text; I will not grade it. If you don’t know how to send a document as an email attachment, I would advise learning.

I will hold off on giving specific assignment due dates, because I want to be sure to cover a certain amount of material before assigning them. You will complete two before the midterm, and two after the midterm.

Reading Schedule:

I’m not going to give a full schedule of readings in advance, but we will follow the order of readings below:

Augustine:
  On the free choice of the will
  Confessions (selections)
  City of God (selections)

Boethius:
  On the consolations of philosophy

Anselm:
  Proslogion

Ibn Sina:
  Selections on “Metaphysics” and “Soul”
al-Ghazali:
The Incoherence of the Philosophers, On the Eternity of the World
The Incoherence of the Philosophers, Concerning the Natural Sciences

Ibn-Rusd
All Selections

Maimonides:
Guide to the perplexed

Aquinas:
Multiple selections. TBD based on class interest

If there is time left over, we will look at selections from Duns Scotus and Buridan.

Exam Schedule:
Midterm: Friday, October 7, in class
Final: Wednesday, December 7, 3.00 – 5.00

Course Description:
This course is an introduction to the central philosophical traditions in South and East Asia. We will cover the rise of philosophy in India, looking at the main philosophical systems as they grew out of the Vedic tradition. We will then look at the rise of Buddhist philosophy, both as its own school of thought, as well as its reaction to orthodox Indian philosophy. We will conclude with the two central schools of thought in the Chinese tradition: Confucianism and Taoism.

Date of School/Department approval ______ October 4, 2011 __________

Catalog description:
This course discusses teaching/learning theory in nursing education. It facilitates understanding of teaching strategies, classroom and clinical management, learner outcomes, syllabi development, and curriculum building. Developing and applying a lesson plan for learners or patients is a course expectation.
Learning Outcomes: At the conclusion of this course, the learner will be able to:
1. Describe methods to facilitate learning by relating theory to practice;
2. Understand how teaching strategies affect the learner’s environment;
3. Apply evaluation strategies appropriate to the learning outcomes;
4. Discuss how a course contributes to the overall value of the curriculum;
5. Encourage critical thinking as part of the learning process;
6. Use self-reflection to improve teaching effectiveness;
7. Disseminate a quality improvement educational project; and
8. Understand how nursing education relates to other college courses and requirements.

Purpose:
1. This class will discuss the theoretical base for the education of nurses and discuss the role of nurse educator in different settings.
2. This course will provide an overview of the issues and strategies used in nursing education and include instruction on classroom and clinical teaching as well as simulation.

Teaching Strategies:
Teaching strategies will consist of lecture, audio-visual aids, class discussions, class and clinical group work, class presentations, seminars, written assignments, paper and pencil tests, role-play, and computer-assisted instructions.

Textbook(s):
Required:

Course Content:
This course will discuss philosophies and science of teaching and learning principles. Other topics will include classroom management and technology, didactic and clinical teaching basics, strategies, simulation, and educator role development. Learners will be asked to take an in-depth look at an active teaching strategy, and demonstrate it to their peers.

Teaching strategies will consist of lecture, audio-visual aids, class discussions, class and clinical group work, class presentations, seminars, written assignments, paper and pencil tests, role-play, and computer-assisted instructions.
Required:

**METHODS OF EVALUATION:**
Successful completion of this course is dependent upon earning grades of C or better.

**Classroom Evaluation Methods:**

| Philosophy of Nursing Education paper | 10% |
| Teaching Plan | 15% |
| Syllabus development | 20% |
| Presentation of teaching strategy | 25% |
| Research paper about strategy | 30% |
| **TOTAL** | **100%** |

**Classroom Grading Scale:**

<table>
<thead>
<tr>
<th>Alphabetic</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>94-100</td>
</tr>
<tr>
<td>B+</td>
<td>90-93</td>
</tr>
<tr>
<td>B</td>
<td>87-89</td>
</tr>
<tr>
<td>C+</td>
<td>83-86</td>
</tr>
<tr>
<td>C</td>
<td>80-82</td>
</tr>
<tr>
<td>F</td>
<td>79 or below</td>
</tr>
</tbody>
</table>

**Rounding**
Per program policy, only final grades will be rounded. Final grades of 0.50 or greater will be rounded up to the next whole numeric value. Therefore, a 79.50 is the minimum grade needed to pass this course, as this is rounded to an 80. Exam and quiz scores will not be rounded and will be entered in grade book in Blackboard to the nearest hundredth of a percent.

**Departmental Criteria:** BLS, PPD, and immunizations (*Department of Nursing Graduate Student Handbook*).

**Attendance Policy**
The University policy regarding class attendance states, “It is the responsibility of the
student to attend all scheduled meetings in the course in which he/she is enrolled. If a student is absent more than twice the number of required class or laboratory sessions per week during regular semesters or more than 15 percent of required sessions during accelerated semesters, a grade of F or W will normally be assigned, unless absences have been excused for cause by the instructor. Individual instructors may choose alternative requirements for attendance. The instructor, at his/her discretion, may utilize a warning of excessive absences or compulsory attendance. Additional attendance policies will be outlined in each course syllabus” (University Catalog, p. 199). Students enrolled in nursing courses are responsible for class attendance and for the prescribed activities of the courses. Students are expected to confer with faculty prior to anticipated absences and make arrangements for any required make-up assignments. Students are expected to review the semester calendar and not make personal plans that conflict with academic obligations (scheduled tests/exams).

**Dress Code**

In recognition of the educational and professional environment of Francis Marion University, all individuals associated with this institution are expected to maintain a neat and clean appearance at all times. Refer to Department of Graduate Student Handbooks (current edition). When students are in the clinical area completing practicum hours, they are to wear their FMU graduate student ID tag and identify themselves as such to patients and all professionals.

**Grievance Procedures**

The Department of Nursing adheres to the University Guidelines for Student Concerns or Complaints as outlined in the current edition of Francis Marion University Catalog. Student concerns or complaints are handled in a professional manner. Discussion and problem solving of issues should be based on facts. Resolutions should acknowledge the satisfaction of all parties, but must maintain the integrity of the nursing program. If the issue(s) cannot be resolved through the procedures below, a formal grievance may be filed as described in the current edition of the University Student Handbook (current edition). Refer also to the Department of Nursing’s Graduate Student Handbook (current edition).

**ACADEMIC INFORMATION**

**Americans with Disabilities Act (ADA):**

If you have a documented disability and require special assistance or accommodations, contact the University Counseling and Testing Center (Francis Marion University Student Handbook, current edition). No accommodations will be made without proper documentation from the University Counseling and Testing Center. The student must provide documentation indicating the accommodations approved by the staff of the Counseling and Testing Center to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the semester. The student must provide documentation of approved
accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters. A student who is referred to the University’s Counseling and Testing Center during the semester and if accommodations are approved by the staff of the Counseling and Testing Center, the student must immediately provide documentation to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the semester. The student must provide documentation of approved accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters.

Student Responsibilities
Each student is responsible for the proper completion of his/her academic program, for familiarity with the FMU Catalog, the University Student Handbook, and the Department of Nursing Graduate Student Handbook (current editions). Each student is responsible for maintaining the grade point average required, and for meeting all degree requirements. The graduate academic advisor will counsel, but the final responsibility for a successful college career rests with the student.

Academic Dishonesty
See Honor Code found in the University Student Hand Book: Rights and Responsibilities Standards of Conduct (current edition). All students and faculty are expected to refrain from acts of academic misconduct including, but not limited to, plagiarism, the giving or falsifying of any academic documents or related materials, cheating, and the giving or receiving of unauthorized aid in tests, examinations, or other assigned work. Please see the Department of Nursing Graduate Student Handbook (current edition): Academic Integrity.

Code of Ethics
The Department of Nursing subscribes to the “Code of Student Conduct” as defined in the “Students’ Rights and Responsibilities” section of the current edition of the Francis Marion University Student Handbook and Catalog (current editions). The Department of Nursing subscribes to the American Nurses Association (ANA) Code of Ethics; whereby, all students and faculty are expected to be honest and honorable in all academic and professional endeavors. It is further expected that they will refrain from any activity, which might impair the image of the University, the Department of Nursing, or the nursing profession. Please see the Department of Graduate Student Handbook (current edition): Academic Integrity and http://www.nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses/Code-of-Ethics.aspx

South Carolina Nurse Practice Act
Students must abide by the South Carolina Nurse Practice Act for APRNs (South Carolina Department of Labor, Licensing, and Regulation: Board of Nursing, 2009).
http://www.scstatehouse.gov/code/t40c033.htm

**Computer Use**

Computers are an essential learning tool, with the cost dependent upon vendor and configuration. It is a requirement that nursing students have access to his/her own personal computer. The minimum configuration should include access to the Internet and support the latest version of Windows and Windows Office Suite (Word, PowerPoint). The hardware specifications necessary should be consistent with those of your Internet Provider. Please see the Department of Nursing Graduate Student Handbook for further computer, email, and hand-held device information.

**Disclaimer**

Faculty members have the prerogative to schedule extra learning activities, change course content and test/exam dates as deemed appropriate, related to course objectives.

### VERBAL COMMUNICATION TECHNIQUES

1. Was the purpose of the communication presented initially (objectives provided)?
2. Did the communicator present information that was appropriate & relevant for the receiver?
3. Was the communicator clear and concise therefore using time appropriately?
4. Was the language appropriate for the receiver?
5. Was the communication gender neutral?
6. Was the communication culturally sensitive?
7. Did periods of silence demonstrate thoughtfulness about information?
8. Did the communicator present as knowledgeable and provide accurate, organized information?
9. Were questions dealt with appropriately (given thought, encouragement and answered accurately)?
10. Did the communicator indicate verbally that he/she was paying attention (actively listening) to the receiver(s) questions?
11. Did the communicator encourage the receiver(s) to participate in discussion?
12. Did the communicator appeal to multiple senses of the receiver by providing a variety of communication methods (handouts, visuals, auditory reinforcements) as appropriate?
13. Did the communicator provide professional (peer reviewed) references about the information presented?

FRANCIS MARION UNIVERSITY: DESCRIPTION OF PROPOSED NEW COURSE or MODIFICATION OF AN EXISTING COURSE

Department/ School__ Nursing __________ Date __8-30-11________

Course No. or Level__ APRN 605__ Title__ Curriculum Development and Program Evaluation

Semester hours__3__ Clock hours: Lecture __3_ (On-line)__ Laboratory __0__

Prerequisites__ None

Enrollment expectation__12____

Indicate any course for which this course is a (an)

modification__ N/A __________
(proposed change in course title, course description, course content or method of instruction)

substitute__ N/A __________
(The proposed new course replaces a deleted course as a General Education or program requirement.)

alternate__ N/A __________
(The proposed new course can be taken as an alternate to an existing course.)

Name of person preparing course description __Ruth Wittmann-Price

Department Chairperson’s/Dean's Signature________

Provost's Signature________________________

Date of Implementation _______ Summer 2014________

Date of School/Department approval _______ October 4, 2011________

Catalog Description:
This course emphasizes different types of curricula used in nursing. It includes understanding of accreditation processes using program outcomes. This course will familiarize students with course sequencing, competency leveling, and learner outcomes. The content includes integration of current clinical standards from the Institute of Medicine, Quality and Safety in Nursing Education, and The Joint Commission.
Learning Outcomes: At the conclusion of this course, the learner will be able to:
1. Describe curriculum patterns that facilitate learning from simple to complex;
2. Understand how curriculum design guides teaching strategies;
3. Apply program evaluation processes to meet educational and accreditation outcomes;
4. Analyze the curriculum in relation to research and practice initiatives;
5. Describe the change processes involved in curriculum development and revision;
6. Use educational evidence in curriculum design;
7. Demonstrate how leading a curriculum change is disseminated to colleagues; and
8. Understand how the nursing curriculum fits into the institutional mission and framework.

Purpose:
1. This course will discuss different types of curriculum used in nursing education and in healthcare systems.
2. It will explore how a full curriculum is developed, the principles behind the development, and the sequencing of courses related to learner outcomes.

Teaching Strategies:
Teaching strategies will consist of lecture, audio-visual aids, class discussions, class and clinical group work, class presentations, seminars, written assignments, paper and pencil tests, role-play, and computer-assisted instructions.

Textbook(s):
Required:

Course Content:
This course will discuss curriculum development and types of curricula in nursing education. Other topics will have to do with philosophical underpinnings, leveling of content and program outcomes.

</tr>
<tr>
<td>C</td>
<td>80-82</td>
</tr>
<tr>
<td>F</td>
<td>79 or below</td>
</tr>
</tbody>
</table>

Rounding
Per program policy, only final grades will be rounded. Final grades of 0.50 or greater will be rounded up to the next whole numeric value. Therefore, a 79.50 is the minimum grade needed to pass this course, as this is rounded to an 80. Exam and quiz scores will not be rounded and will be entered in grade book in Blackboard to the nearest hundredth of a percent.

Departmental Criteria: BLS, PPD, and immunizations (*Department of Nursing Graduate Student Handbook*).

Attendance Policy
The University policy regarding class attendance states, “It is the responsibility of the student to attend all scheduled meetings in the course in which he/she is enrolled. If a student is absent more than twice the number of required class or laboratory sessions per week during regular semesters or more than 15 percent of required sessions during accelerated semesters, a grade of F or W will normally be assigned, unless absences have been excused for cause by the instructor. Individual instructors may choose alternative requirements for attendance. The instructor, at his/her discretion, may utilize a warning of excessive absences or compulsory
attendance. Additional attendance policies will be outlined in each course syllabus” (University Catalog, p. 199). Students enrolled in nursing courses are responsible for class attendance and for the prescribed activities of the courses. Students are expected to confer with faculty prior to anticipated absences and make arrangements for any required make-up assignments. Students are expected to review the semester calendar and not make personal plans that conflict with academic obligations (scheduled tests/exams).

Dress Code

In recognition of the educational and professional environment of Francis Marion University, all individuals associated with this institution are expected to maintain a neat and clean appearance at all times. Refer to Department of Graduate Student Handbooks (current edition). When students are in the clinical area completing practicum hours, they are to wear their FMU graduate student ID tag and identify themselves as such to patients and all professionals.

Grievance Procedures

The Department of Nursing adheres to the University Guidelines for Student Concerns or Complaints as outlined in the current edition of Francis Marion University Catalog. Student concerns or complaints are handled in a professional manner. Discussion and problem solving of issues should be based on facts. Resolutions should acknowledge the satisfaction of all parties, but must maintain the integrity of the nursing program. If the issue(s) cannot be resolved through the procedures below, a formal grievance may be filed as described in the current edition of the University Student Handbook (current edition). Refer also to the Department of Nursing’s Graduate Student Handbook (current edition).

ACADEMIC INFORMATION

Americans with Disabilities Act (ADA):

If you have a documented disability and require special assistance or accommodations, contact the University Counseling and Testing Center (Francis Marion University Student Handbook, current edition). No accommodations will be made without proper documentation from the University Counseling and Testing Center. The student must provide documentation indicating the accommodations approved by the staff of the Counseling and Testing Center to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the semester. The student must provide documentation of approved accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters.

A student who is referred to the University’s Counseling and Testing Center during the semester and if accommodations are approved by the staff of the Counseling and Testing Center, the student must immediately provide documentation to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the
Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the semester. The student must provide documentation of approved accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters.

**Student Responsibilities**

Each student is responsible for the proper completion of his/her academic program, for familiarity with the *FMU Catalog*, the *University Student Handbook*, and the *Department of Nursing Graduate Student Handbook (current editions)*. Each student is responsible for maintaining the grade point average required, and for meeting all degree requirements. The graduate academic advisor will counsel, but the final responsibility for a successful college career rests with the student.

**Academic Dishonesty**

See Honor Code found in the *University Student Hand Book: Rights and Responsibilities Standards of Conduct (current edition)*. All students and faculty are expected to refrain from acts of academic misconduct including, but not limited to, plagiarism, the giving or falsifying of any academic documents or related materials, cheating, and the giving or receiving of unauthorized aid in tests, examinations, or other assigned work. Please see the *Department of Nursing Graduate Student Handbook (current edition): Academic Integrity*.

**Code of Ethics**

The Department of Nursing subscribes to the “Code of Student Conduct” as defined in the “Students’ Rights and Responsibilities” section of the current edition of the *Francis Marion University Student Handbook and Catalog (current editions)*. The Department of Nursing subscribes to the American Nurses Association (ANA) Code of Ethics; whereby, all students and faculty are expected to be honest and honorable in all academic and professional endeavors. It is further expected that they will refrain from any activity, which might impair the image of the University, the Department of Nursing, or the nursing profession. Please see the *Department of Graduate Student Handbook (current edition): Academic Integrity* and http://www.nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses/Code-of-Ethics.aspx

**South Carolina Nurse Practice Act**

Students must abide by the South Carolina Nurse Practice Act for APRNs (*South Carolina Department of Labor, Licensing, and Regulation: Board of Nursing, 2009)*. http://www.scstatehouse.gov/code/t40c033.htm

**Computer Use**

Computers are an essential learning tool, with the cost dependent upon vendor and configuration. It is a requirement that nursing students have access to his/her own personal computer. The minimum configuration should include access to the Internet and support the
latest version of Windows and Windows Office Suite (Word, PowerPoint). The hardware specifications necessary should be consistent with those of your Internet Provider. Please see the Department of Nursing Graduate Student Handbook for further computer, email, and hand-held device information.

**Disclaimer**

Faculty members have the prerogative to schedule extra learning activities, change course content and test/exam dates as deemed appropriate, related to course objectives.

Date of Implementation _______ Spring 2014

Date of School/Department approval _______ October 4, 2011_________

Catalog description:
This course is a practicum course and will concentrate on developing an academic teaching/learning session with a qualified preceptor. The expectations of this course are that students will receive teaching experience in the classroom and will demonstrate skill and competency in assessing learners’ needs. The goal of the course is that students will develop and implement an educational session, and evaluate learner knowledge acquisition.
Learning Outcomes: At the conclusion of this course, the learner will be able to:

1. Develop a teaching plan which facilitates active classroom learning;
2. Recognizes different learning styles within one classroom;
3. Constructs a method to evaluate learning outcomes;
4. Discusses how learning session contributes to program outcomes;
5. Demonstrates competence and leadership in a didactic teaching process;
6. Integrates evidence into teaching plan development;
7. Discusses methods of enhancing the scholarship of teaching; and
8. Incorporates teaching session into developing academic portfolio.

Purpose:
This course will provide the learners with a semester of academic teaching with a preceptor.

Teaching Strategies:
Teaching strategies will consist of independent guidance and feedback, discussions, seminars, written assignments, and computer-assisted instructions.

Textbook(s):
Required:

Course Content:
This course will include the learner actually student teaching in a school of nursing at the associate or BSN level. The learner will develop a teaching plan, strategy, and evaluation tool for the session. If the learner who is not local they will video tape the session and mail the taped copy to the instructor.
Course Title: Academic Practicum

**METHODS OF EVALUATION:**
Successful completion of this course is dependent upon earning grades of C or better.

**Classroom Evaluation Methods:**

<table>
<thead>
<tr>
<th>Evaluation Method</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Learning assessment</td>
<td>20%</td>
</tr>
<tr>
<td>Learning plan</td>

<td>87-89</td>
</tr>
<tr>
<td>C+</td>
<td>83-86</td>
</tr>
<tr>
<td>C</td>
<td>80-82</td>
</tr>
<tr>
<td>F</td>
<td>79 or below</td>
</tr>
</tbody>
</table>

**Rounding**
Per program policy, only final grades will be rounded. Final grades of 0.50 or greater will be rounded up to the next whole numeric value. Therefore, a 79.50 is the minimum grade needed to pass this course, as this is rounded to an 80. Exam and quiz scores will not be rounded and will be entered in grade book in Blackboard to the nearest hundredth of a percent.

**Departmental Criteria:** BLS, PPD, and immunizations (*Department of Nursing Graduate Student Handbook*).

**Attendance Policy**
The course requires the student to meet initially with the faculty member to establish a preceptor plan for the semester. Contracts and preceptor forms must be completed before the
practicum hours begin. The student will check in with the faculty member every week via Blackboard learning System and the presentation date will be provided to the faculty member as soon as possible. The faculty will be present for the presentation if possible but the student must make accommodations to video tape the presentation.

**Dress Code**

In recognition of the educational and professional environment of Francis Marion University, all individuals associated with this institution are expected to maintain a neat and clean appearance at all times. Refer to *Department of Graduate Student Handbooks (current edition)*. When students are in the clinical area completing practicum hours, they are to wear their FMU graduate student ID tag and identify themselves as such to patients and all professionals.

**Grievance Procedures**

The Department of Nursing adheres to the University Guidelines for Student Concerns or Complaints as outlined in the current edition of *Francis Marion University Catalog*. Student concerns or complaints are handled in a professional manner. Discussion and problem solving of issues should be based on facts. Resolutions should acknowledge the satisfaction of all parties, but must maintain the integrity of the nursing program. If the issue(s) cannot be resolved through the procedures below, a formal grievance may be filed as described in the current edition of the *University Student Handbook (current edition)*. Refer also to the *Department of Nursing’s Graduate Student Handbook (current edition)*.

**ACADEMIC INFORMATION**

**Americans with Disabilities Act (ADA):**

If you have a documented disability and require special assistance or accommodations, contact the University Counseling and Testing Center (Francis Marion University Student Handbook, current edition). No accommodations will be made without proper documentation from the University Counseling and Testing Center. The student must provide documentation indicating the accommodations approved by the staff of the Counseling and Testing Center to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the semester. The student must provide documentation of approved accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters.

A student who is referred to the University’s Counseling and Testing Center during the semester and if accommodations are approved by the staff of the Counseling and Testing Center, the student must immediately provide documentation to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the
semester. The student must provide documentation of approved accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters.

**Student Responsibilities**

Each student is responsible for the proper completion of his/her academic program, for familiarity with the FMU Catalog, the University Student Handbook, and the Department of Nursing Graduate Student Handbook (current editions). Each student is responsible for maintaining the grade point average required, and for meeting all degree requirements. The graduate academic advisor will counsel, but the final responsibility for a successful college career rests with the student.

**Academic Dishonesty**

See Honor Code found in the University Student Hand Book: Rights and Responsibilities Standards of Conduct (current edition). All students and faculty are expected to refrain from acts of academic misconduct including, but not limited to, plagiarism, the giving or falsifying of any academic documents or related materials, cheating, and the giving or receiving of unauthorized aid in tests, examinations, or other assigned work. Please see the Department of Nursing Graduate Student Handbook (current edition): Academic Integrity.

**Code of Ethics**

The Department of Nursing subscribes to the “Code of Student Conduct” as defined in the ”Students’ Rights and Responsibilities” section of the current edition of the Francis Marion University Student Handbook and Catalog (current editions). The Department of Nursing subscribes to the American Nurses Association (ANA) Code of Ethics; whereby, all students and faculty are expected to be honest and honorable in all academic and professional endeavors. It is further expected that they will refrain from any activity, which might impair the image of the University, the Department of Nursing, or the nursing profession. Please see the Department of Graduate Student Handbook (current edition): Academic Integrity and http://www.nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses/Code-of-Ethics.aspx

**South Carolina Nurse Practice Act**

Students must abide by the South Carolina Nurse Practice Act for APRNs (South Carolina Department of Labor, Licensing, and Regulation: Board of Nursing, 2009). http://www.scstatehouse.gov/code/t40c033.htm

**Computer Use**

Computers are an essential learning tool, with the cost dependent upon vendor and configuration. It is a requirement that nursing students have access to his/her own personal computer. The minimum configuration should include access to the Internet and support the latest version of Windows and Windows Office Suite (Word, PowerPoint). The hardware specifications necessary should be consistent with those of your Internet Provider. Please see the
Department of Nursing Graduate Student Handbook for further computer, email, and hand-held device information.

Disclaimer
Faculty members have the prerogative to schedule extra learning activities, change course content and test/exam dates as deemed appropriate, related to course objectives.

Date of Implementation ___________ Fall 2014 ___________

Date of School/Department approval ___________ October 4, 2011 ___________

Catalog Description:

This course is a practicum course and will concentrate on developing a clinical teaching/learning session with a qualified preceptor. The expectations of this course are that students will receive teaching experience in the clinical domain and demonstrate skill and competency in assessing learners’ needs. The goal of the course is that students will develop and implement educational sessions, as well as evaluate learner knowledge acquisition and clinical skill attainment.
Learning Outcomes: At the conclusion of this course, the learner will be able to:
1. Develop a teaching plan which facilitates active clinical learning;
2. Recognizes different learning styles within any one group of learners;
3. Constructs a method to evaluate psychomotor, cognitive, and affective learning outcomes;
4. Discusses how learning session contributes to course or organizational outcomes;
5. Demonstrates competence and leadership in a clinical teaching process;
6. Integrates evidence into teaching plan development;
7. Discusses methods of enhancing the scholarship of clinical teaching; and
8. Incorporates clinical teaching into current healthcare organization.

Purpose:
This course will provide the learners with a semester of clinical teaching with a preceptor.

Teaching Strategies:
Teaching strategies will consist of independent guidance and feedback, discussions, seminars, written assignments, and computer-assisted instructions.

Textbook(s):
Required:

Course Content
This course will include the teaching student or staff nurses in a clinical setting. The learner will develop a teaching plan, strategy, and evaluation tool for the sessions. If the student is not local he/she will video tape the session and mail the taped copy to the instructor.

Rounding
Per program policy, only final grades will be rounded. Final grades of 0.50 or greater will be rounded up to the next whole numeric value. Therefore, a 79.50 is the minimum grade needed to pass this course, as this is rounded to an 80. Exam and quiz scores will not be rounded and will be entered in grade book in Blackboard to the nearest hundredth of a percent.
Departmental Criteria: BLS, PPD, and immunizations (Department of Nursing Graduate Student Handbook).

Attendance Policy
The course requires the student to meet initially with the faculty member to establish a preceptor plan for the semester. Contracts and preceptor forms must be completed before the practicum hours begin. The student will check in with the faculty member every week via Blackboard learning System and the presentation date will be provided to the faculty member as soon as possible. The faculty will be present for the presentation if possible but the student must make accommodations to video tape the presentation.

Dress Code
In recognition of the educational and professional environment of Francis Marion University, all individuals associated with this institution are expected to maintain a neat and clean appearance at all times. Refer to Department of Graduate Student Handbooks (current edition). When students are in the clinical area completing practicum hours, they are to wear their FMU graduate student ID tag and identify themselves as such to patients and all professionals.

Grievance Procedures
The Department of Nursing adheres to the University Guidelines for Student Concerns or Complaints as outlined in the current edition of Francis Marion University Catalog. Student concerns or complaints are handled in a professional manner. Discussion and problem solving of issues should be based on facts. Resolutions should acknowledge the satisfaction of all parties, but must maintain the integrity of the nursing program. If the issue(s) cannot be resolved through the procedures below, a formal grievance may be filed as described in the current edition of the University Student Handbook (current edition). Refer also to the Department of Nursing’s Graduate Student Handbook (current edition).

ACADEMIC INFORMATION

Americans with Disabilities Act (ADA):
If you have a documented disability and require special assistance or accommodations, contact the University Counseling and Testing Center (Francis Marion University Student Handbook, current edition). No accommodations will be made without proper documentation from the University Counseling and Testing Center. The student must provide documentation indicating the accommodations approved by the staff of the Counseling and Testing Center to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the semester. The student must provide documentation of approved accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters.
A student who is referred to the University’s Counseling and Testing Center during the semester and if accommodations are approved by the staff of the Counseling and Testing Center, the student must immediately provide documentation to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the semester. The student must provide documentation of approved accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters.

**Student Responsibilities**

Each student is responsible for the proper completion of his/her academic program, for familiarity with the *FMU Catalog, the University Student Handbook, and the Department of Nursing Graduate Student Handbook (current editions)*. Each student is responsible for maintaining the grade point average required, and for meeting all degree requirements. The graduate academic advisor will counsel, but the final responsibility for a successful college career rests with the student.

**Academic Dishonesty**

See Honor Code found in the *University Student Hand Book: Rights and Responsibilities Standards of Conduct (current edition)*. All students and faculty are expected to refrain from acts of academic misconduct including, but not limited to, plagiarism, the giving or falsifying of any academic documents or related materials, cheating, and the giving or receiving of unauthorized aid in tests, examinations, or other assigned work. Please see the *Department of Nursing Graduate Student Handbook (current edition): Academic Integrity*.

**Code of Ethics**

The Department of Nursing subscribes to the “Code of Student Conduct” as defined in the “Students’ Rights and Responsibilities” section of the current edition of the *Francis Marion University Student Handbook and Catalog (current editions)*. The Department of Nursing subscribes to the American Nurses Association (ANA) Code of Ethics; whereby, all students and faculty are expected to be honest and honorable in all academic and professional endeavors. It is further expected that they will refrain from any activity, which might impair the image of the University, the Department of Nursing, or the nursing profession. Please see the *Department of Graduate Student Handbook (current edition): Academic Integrity and Code of Ethics*

**South Carolina Nurse Practice Act**

Students must abide by the South Carolina Nurse Practice Act for APRNs (*South Carolina Department of Labor, Licensing, and Regulation: Board of Nursing, 2009*).

[http://www.scstatehouse.gov/code/t40c033.htm](http://www.scstatehouse.gov/code/t40c033.htm)
**Computer Use**

Computers are an essential learning tool, with the cost dependent upon vendor and configuration. It is a requirement that nursing students have access to his/her own personal computer. The minimum configuration should include access to the Internet and support the latest version of Windows and Windows Office Suite (Word, PowerPoint). The hardware specifications necessary should be consistent with those of your Internet Provider. Please see the *Department of Nursing Graduate Student Handbook* for further computer, email, and hand-held device information.

**Disclaimer**

Faculty members have the prerogative to schedule extra learning activities, change course content and test/exam dates as deemed appropriate, related to course objectives.

Date of Implementation Fall 2014

Date of School/Department approval October 4, 2011

Catalog Description:

This seminar course addresses academic environment, career and portfolio development, as well as future trends for nursing education and nurse educators. Students will develop a profession plan and skills in interviewing and presentation.
Learning Outcomes: At the conclusion of this course, the learner will be able to:
1. Develop a career trajectory;
2. Understand educational environments and nursing as an academic discipline;
3. Discuss faculty outcomes and contributions to an education system;
4. Demonstrates competence and leadership in nursing education;
5. Integrates evidence, ethical, and league issues into teaching development;
6. Discusses methods of enhancing the scholarship of teaching; and
7. Develop an academic portfolio.

Purpose:
1. This course will provide the learner with a semester of seminar topics regarding clinical teaching, and higher education.
2. It will include legal and ethical principles as well as future roles of nursing educators.

Teaching Strategies:
Teaching strategies will consist of lecture, audio-visual aids, class discussions, class and clinical group work, class presentations, seminars, written assignments, paper and pencil tests, role-play, and computer-assisted instructions.

Textbook(s):
Required:

Course Content:
This is a seminar course with topics such as academic career advancement, tenure, promotion, legal and ethical issues in nursing education, ADA implications.

Rounding
Per program policy, only final grades will be rounded. Final grades of 0.50 or greater will be rounded up to the next whole numeric value. Therefore, a 79.50 is the minimum grade needed to pass this course, as this is rounded to an 80. Exam and quiz scores will not be rounded.
and will be entered in grade book in Blackboard to the nearest hundredth of a percent. **Departmental Criteria:** BLS, PPD, and immunizations (*Department of Nursing Graduate Student Handbook*).

**Attendance Policy**

The University policy regarding class attendance states, “It is the responsibility of the student to attend all scheduled meetings in the course in which he/she is enrolled. If a student is absent more than twice the number of required class or laboratory sessions per week during regular semesters or more than 15 percent of required sessions during accelerated semesters, a grade of F or W will normally be assigned, unless absences have been excused for cause by the instructor. Individual instructors may choose alternative requirements for attendance. The instructor, at his/her discretion, may utilize a warning of excessive absences or compulsory attendance. Additional attendance policies will be outlined in each course syllabus” (*University Catalog, p. 199*). Students enrolled in nursing courses are responsible for class attendance and for the prescribed activities of the courses. Students are expected to confer with faculty prior to anticipated absences and make arrangements for any required make-up assignments. Students are expected to review the semester calendar and not make personal plans that conflict with academic obligations (scheduled tests/exams).

**Dress Code**

In recognition of the educational and professional environment of Francis Marion University, all individuals associated with this institution are expected to maintain a neat and clean appearance at all times. Refer to *Department of Graduate Student Handbooks (current edition)*. When students are in the clinical area completing practicum hours, they are to wear their FMU graduate student ID tag and identify themselves as such to patients and all professionals.

**Grievance Procedures**

The Department of Nursing adheres to the University Guidelines for Student Concerns or Complaints as outlined in the current edition of *Francis Marion University Catalog*. Student concerns or complaints are handled in a professional manner. Discussion and problem solving of issues should be based on facts. Resolutions should acknowledge the satisfaction of all parties, but must maintain the integrity of the nursing program. If the issue(s) cannot be resolved through the procedures below, a formal grievance may be filed as described in the current edition of the *University Student Handbook (current edition)*. Refer also to the *Department of Nursing’s Graduate Student Handbook (current edition)*.

**ACADEMIC INFORMATION**

**Americans with Disabilities Act (ADA):**

If you have a documented disability and require special assistance or accommodations, contact the University Counseling and Testing Center (Francis Marion University Student Handbook, current edition). No accommodations will be made without proper documentation.
from the University Counseling and Testing Center. The student must provide documentation indicating the accommodations approved by the staff of the Counseling and Testing Center to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the semester. The student must provide documentation of approved accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters.

A student who is referred to the University’s Counseling and Testing Center during the semester and if accommodations are approved by the staff of the Counseling and Testing Center, the student must immediately provide documentation to the course coordinator and/or clinical instructor. The student must request in writing the accommodations approved by the staff of the Counseling and Testing Center and meet with the course coordinator before any accommodations will be made. The student must adhere to these accommodations throughout the semester. The student must provide documentation of approved accommodations, request accommodations, and meet with all course faculty prior to first day of class in subsequent semesters.

**Student Responsibilities**

Each student is responsible for the proper completion of his/her academic program, for familiarity with the *FMU Catalog, the University Student Handbook*, and the *Department of Nursing Graduate Student Handbook (current editions)*. Each student is responsible for maintaining the grade point average required, and for meeting all degree requirements. The graduate academic advisor will counsel, but the final responsibility for a successful college career rests with the student.

**Academic Dishonesty**

See Honor Code found in the *University Student Hand Book: Rights and Responsibilities Standards of Conduct (current edition)*. All students and faculty are expected to refrain from acts of academic misconduct including, but not limited to, plagiarism, the giving or falsifying of any academic documents or related materials, cheating, and the giving or receiving of unauthorized aid in tests, examinations, or other assigned work. Please see the *Department of Nursing Graduate Student Handbook (current edition): Academic Integrity*.

**Code of Ethics**

The Department of Nursing subscribes to the “Code of Student Conduct” as defined in the "Students’ Rights and Responsibilities” section of the current edition of the *Francis Marion University Student Handbook and Catalog (current editions)*. The Department of Nursing subscribes to the American Nurses Association (ANA) Code of Ethics; whereby, all students and faculty are expected to be honest and honorable in all academic and professional endeavors. It is further expected that they will refrain from any activity, which might impair the image of the University, the Department of Nursing, or the nursing profession. Appendix A: Course Modification Form

FRANCIS MARION UNIVERSITY: DESCRIPTION OF PROPOSED NEW COURSE or MODIFICATION OF AN EXISTING COURSE

Department/School: EDUCATION

Course No. or Level: EDUC 555

Title: Introduction to Educational Programs for Children of Poverty

Semester hours: 3
Clock hours: Lecture 3, Laboratory 0

Prerequisites: Permission of the Graduate School of Education

Enrollment expectation: 30

Indicate any course for which this course is a (an)

Modification: EDUC 555
(proposed change in course title, course description, course content or method of instruction)

Substitute: n/a
(The proposed new course replaces a deleted course as a General Education or program requirement.)

Alternate: n/a
(The proposed new course can be taken as an alternate to an existing course.)

Name of person preparing course description: TAMMY PAWLOSKI

Department Chairperson’s/Dean's Signature

Provost's Signature

Date of Implementation: SUMMER 2012

Date of School/Department approval: XXXXX

Catalog description:
This course and its required clinical experiences are designed to provide graduate students with an initial study of issues related to life in poverty and the impact poverty has on teaching and learning. The course includes an introductory study of six standards for teachers of children of poverty including the following: life in poverty; the classroom community; family and community partnerships; curriculum design, instructional strategies and assessment; relationship-driven classroom management; and teachers as learners, leaders and advocates to improve curriculum, instruction, and assessment in schools serving large numbers of children of poverty. This course is required for all Center of Excellence Scholars.
Purpose:  1. For Whom (generally?)
This course is designed for graduate students in education who have an interest in teaching children from impoverished backgrounds or who have interest in seeking designation as a Center of Excellence Scholar through the FMU School of Education.

2. What should the course do for the student?
This course and its required clinical experiences are designed to provide graduate students with an initial study of issues related to life in poverty and the impact poverty has on teaching and learning. The course includes an introductory study of six standards for teachers of children of poverty including the following: life in poverty; the classroom community; family and community partnerships; curriculum design, instructional strategies and assessment; relationship-driven classroom management; and teachers as learners, leaders and advocates to improve curriculum, instruction, and assessment in schools serving large numbers of children of poverty. This course is required for all Center of Excellence Scholars.

Ultimately, it is designed to help solve the problems inherent in educating children of poverty by developing expertise in those that work with these children on a daily basis. This course will become the introductory requirement of the Center of Excellence Scholars program, a professional development program to be sponsored by FMU’s Center of Excellence to Prepare Teachers of Children of Poverty. It is expected that it will also be the introductory course in a series of four courses that will lead to Add-On Certification – Teaching Children of Poverty awarded by the South Carolina State Department of Education.

Teaching method planned:
Each class will be a combination of demonstration/modeling, discussion, and direct teaching of techniques followed by hands-on practice by students. Graduate students in education will have opportunities to work independently and collaboratively with other graduate students in education. Peer coaching and peer review techniques will be used to facilitate instruction, learning and assessment.

This course will include the use of the following teaching methods:
- Lecture
- Small and Large Group Traditional and Action Research-Based Activities
- Role play
- Journaling
- Field Trips and Guest Speakers
- Independent Observation and Practice

Textbook and/or materials planned (including electronic/multimedia):

Course Content: (Please explain the content of the course in enough detail so that the Academic Affairs Committee can make an informed judgment. Include a syllabus for the course.)

This course and its required clinical experiences are designed to provide graduate students with an initial study of issues related to life in poverty and the impact poverty has on teaching and learning. The course includes an introductory study of six standards for teachers of children of poverty including the following: life in poverty; the classroom community; family and community partnerships; curriculum design, instructional strategies and assessment; relationship-driven classroom management; and teachers as learners, leaders and advocates to improve curriculum, instruction, and assessment in schools serving large numbers of children of poverty. This course is required for all Center of Excellence Scholars.

The following outline illustrates how content will be addressed in each area of study:

1. **Life in Poverty**
   a. Necessary Resources for Success
   b. Risk Indicators and Contextual Risk Factors
   c. Health Issues, Signs and Symptoms
   d. The “Hidden Rules of Poverty”
   e. Generational vs. Situational Poverty
   f. Family-based Relationships and Role Models
   g. Self-efficacy, Learned Helplessness, Learned Optimism
   h. Service Learning

2. **The Classroom Community**
   a. Self-efficacy and Achievement
   b. Motivation and Engagement
   c. School-based Relationships and Role Models
   d. Relationship Driven Classroom Management Plans

3. **Family and Community Partnerships**
   a. Family Structures that Impact Partnerships and Strategies
   b. A Framework for Partnerships
      1. Parenting
      2. Communicating
      3. Volunteering
      4. Learning at Home
      5. Decision Making
      6. Collaborating with Community
   c. Service Learning

4. **Curriculum Design, Instructional Strategies & Assessment**
   a. Background Knowledge
   b. Language and Literacy
      1. Language-oriented background knowledge and experiences
      2. Language rich classrooms
      3. Struggling readers
   c. Curriculum Design
      1. Growth and development as it drives curriculum design
      2. Alignment of curriculum with instruction and assessment
      3. Appropriate instructional strategies
      4. Metacognitive strategies that facilitate student learning
      5. Horizontal and vertical teaching teams
d. Assessment
   1. Authentic assessment
   2. Formative assessment strategies
   3. Summative assessment strategies
   4. Assessment data and effective instructional planning
   5. Assessment data organized by poverty subgroups

5. Teachers as Learners, Leaders and Advocates
   a. The Teacher as a Learner
      1. Self-reflection and self-evaluation
      2. The responsibilities of role models
      3. Teacher qualities that result in student success
   b. The Teacher as a Leader
      1. Ways teachers lead
      2. Leadership through professional organization membership/participation
   c. The Teacher as an Advocate for Children of Poverty
      1. The importance of advocacy
      2. Strategies for advocacy

(Syllabus attached)

When completed, forward to the Office of the Provost. 9/03
Appendix B: New Course Syllabus  (changes are identified in red)

Introduction to Educational Programs for Children of Poverty
EDUC 555 Graduate

Instructor: Dr. Tammy Pawloski
Office: CFC 119, 661-1475       Home:
Office Hours:
E-mail: tpawloski@fmarion.edu
Prerequisites: Permission of the Graduate School of Education
Corequisites: None
Meeting Times: ________________________________
Meeting Location: ________________________________

School of Education Conceptual Framework:
The School of Education prepares competent and caring teachers.

I. Competent teachers possess
   A. Knowledge of content in their area of teaching
   B. Professional knowledge and skills
      1. Ability to plan instruction
      2. Ability to apply skills and knowledge in a clinical setting
      3. Ability to cause learning in P-12 students
      4. Ability to assess learning and learners
      5. Ability to work with children of poverty
      6. Ability to use technology

II. Caring teachers possess
   Professional Dispositions
   A. Exhibits professional attributes
   B. Respects the Learning Process in demonstrating instructional/assessment flexibility and accommodations to individual differences that reflect the belief that all students can learn regardless of their backgrounds.
   C. Upholds Ethical and Professional Standards
   D. Shows respect for families, cultures and communities and demonstrates a sense of fairness and respect to all participants within each group.
   E. Shows respect for colleagues, P-12 students, faculty and staff

Course Description
This course and its required clinical experiences are designed to provide graduate students with an initial study of issues related to life in poverty and the impact poverty has on teaching and learning. The course includes an introductory study of six standards for teachers of children of poverty including the following: life in poverty; the classroom community; family and community partnerships; curriculum design, instructional strategies and assessment; relationship-driven classroom management; and teachers as learners, leaders and advocates to improve curriculum, instruction, and assessment in schools serving large numbers of children of poverty. This course is required for all Center of Excellence Scholars.
Objectives
Upon completion of the course, the graduate student in education will be able to:

<table>
<thead>
<tr>
<th>Objective</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demonstrate an understanding of the culture of poverty.</td>
</tr>
<tr>
<td>Develop a plan for building a relationship driven classroom community.</td>
</tr>
<tr>
<td>Develop a plan for building family and community partnerships in schools that serve children of poverty.</td>
</tr>
<tr>
<td>Design curriculum, instructional strategies and assessments appropriate for the unique needs of children of poverty.</td>
</tr>
<tr>
<td>Demonstrate a commitment to on-going learning, teacher leadership, and advocacy for children of poverty.</td>
</tr>
</tbody>
</table>

Texts *(all texts are recommended only)*

Content Outline
This course will address the content areas listed below.

1. **Life in Poverty**
   - Necessary Resources for Success
   - Risk Indicators and Contextual Risk Factors
   - Health Issues, Signs and Symptoms
   - The “Hidden Rules of Poverty”
   - Generational vs. Situational Poverty
   - Family-based Relationships and Role Models
   - Self-efficacy, Learned Helplessness, Learned Optimism
   - Service Learning

2. **The Classroom Community**
   - Self-efficacy and Achievement
   - Motivation and Engagement
   - School-based Relationships and Role Models
   - Relationship Driven Classroom Management Plans

3. **Family and Community Partnerships**
   - Family Structures that Impact Partnerships and Strategies
   - A Framework for Partnerships
Service Learning

   a. Background Knowledge
   b. Language and Literacy
      i. Language-oriented background knowledge and experiences
      ii. Language rich classrooms
      iii. Struggling readers
   c. Curriculum Design
      i. Growth and development as it drives curriculum design
      ii. Alignment of curriculum with instruction and assessment
      iii. Appropriate instructional strategies
      iv. Metacognitive strategies that facilitate student learning
      v. Horizontal and vertical teaching teams
   d. Assessment
      i. Authentic assessment
      ii. Formative assessment strategies
      iii. Summative assessment strategies
      iv. Assessment data and effective instructional planning
      v. Assessment data organized by poverty subgroups

5. Teachers as Learners, Leaders and Advocates
   a. The Teacher as a Learner
      i. Self-reflection and self-evaluation
      ii. The responsibilities of role models
      iii. Teacher qualities that result in student success
   b. The Teacher as a Leader
      i. Ways teachers lead
      ii. Leadership through professional organization membership/participation
   c. The Teacher as an advocate for children of poverty
      i. The importance of advocacy
      ii. Strategies for advocacy

Methods of Presentation

Each class will be a combination of demonstration/modeling, discussion, and direct teaching of techniques followed by hands-on practice by students. Graduate students in education will have opportunities to work independently and collaboratively with other students. Peer coaching and peer review techniques will be used to facilitate instruction, learning and assessment.

This course will include the use of the following teaching methods:

- Lecture
- Small and Large Group Traditional and Action Research-Based Activities
- Role play
- Journaling
- Field Trips and Guest Speakers
- Independent Observation and Practice

Description of Teaching Strategies and Course Activities

<table>
<thead>
<tr>
<th>Strategy</th>
<th>Course Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lecture/presentation</td>
<td>related to topics in readings</td>
</tr>
</tbody>
</table>
Demonstration/modeling…… of techniques for planning, implementation, and assessment of teaching strategies
Readings, question/answer, discussion………. related to topics in readings
Hands-on experience………. use of various teaching strategies and multimedia technologies in the classroom as well as the clinical setting.
Collaboration……………… small/large group activities that require students to think about issues related to the text and class discussion topics
Peer coaching/review………. of assignments and projects
Reflection…………………… on effective applications of content

Course Requirements
1. Attendance and participation in all classes.
2. Completion of textbook readings before class dates indicated on schedule.
3. Successful completion of all assignments/projects.
4. Successful completion of quizzes/demonstrations.

Course Policies (Attendance, Grading, Professional Behavior)

Professional Behavior: Dispositions are as important as academic work. Graduate students are expected to conduct themselves in a professional manner at all times. This includes adhering to the FMU attendance policy [no more than two absences]; punctuality for all classes and meetings, because late arrivals to class are a disruption and a diversion from the class session already in progress [two tardies/early departures equal one absence]; and the active cultivation of positive peer and teacher relationships. In this course, all graduate students in education have the right to learn in a respectful environment and the instructor has the right to teach in a respectful environment. Engaging in personal conversations, preparing for another class, or being inattentive distracts other class participants, including your professor, and will not be tolerated. It is expected that all students participate in class appropriately. Any failure to demonstrate appropriate professional dispositions will result in disciplinary actions that comply with FMU SOE policies that may include withdrawal from the course.

Collaboration: Graduate students are encouraged to take advantage of peers as resources throughout the course, and, when approved in advance by the professor, students may collaborate on assignments. If students participate in such collaborative efforts, “Collaboration Rubrics” must be submitted by all members of the team.

Assignments:
Due Dates: Assignments and responsibilities are due at the beginning of class on the date specified.
Assignments will be considered unacceptable past the due date, unless approved in advance by the professor, and late assignment grades may be dropped one letter grade for each day late even if a late submission is approved by the professor. Graduate students must retain all graded assignments throughout the course. These must be presented should any discrepancy occur between grades received and recorded. Should students have questions about an assignment, the professor must be contacted WELL IN ADVANCE of the due date for clarification or other assistance.

Neatness/Accuracy: All assignments must be prepared with great attention to detail, neatness, and accuracy. Assignments must be typed (single spaced, 10-12 point font) unless otherwise noted by the instructor.
Rubrics: Rubrics for assignments are provided when appropriate and all rubrics must be completed in full by the student and submitted along with the assignment in order for the assignment to be considered complete. Assignments will not be graded without attached, student-completed rubrics, and will be deemed “late.” The professor will determine on a case-by-case basis if the late assignment will be accepted after completed rubrics are attached.

School of Education News and Announcements on Website
Each week remember to check the “News and Announcements” page for any upcoming deadlines required for your completion in the education program and for special information regarding your major. You may do this by going to the Francis Marion Website, www.fmarion.edu, clicking on the
drop-down box under “Quick Links”, choosing “School of Education”, and then clicking “News and Announcements” under the column on the left side of the page.

LIVETEXT
LiveText is the computerized assessment system utilized by the School of Education to collect data required for NCATE accreditation. Throughout their programs, teacher candidates will submit assignments through LiveText for assessment.

Course Assessments

Academic Portfolio: The EDUC 555 graduate student will compile a portfolio comprised of the assignments listed below: (General descriptions of each project are included below, and examples, specific oral and written instructions, and scoring rubrics regarding each project will be provided separately.)

Graded Activities Related to All Content Areas:
- **Class Participation and Dispositions:** The graduate student in education will participate in class discussions and related activities in a genuine and informed manner to exemplify the completion of assignments and preparation for class. All materials must be maintained in a neatly organized portfolio. Format and rubric will be provided that detail assessment categories. YOU MUST EARN THESE POINTS! (20 points)
- **Readings Reviews:** The graduate student in education will read and review, according to the format provided, 5 journal articles in specific areas of TCOP (The Culture of Poverty; The Classroom Community; Family and Community Partnerships; Curriculum Design, Instructional Strategies and Assessment; Teachers as Learners, Leaders and Advocates). Rubrics will be provided that detail assessment categories. (10 points each; 50 points total)
- **Multimedia Presentation:** The graduate student in education will work as a member of a small group (no more than 5 per group) to develop and present a multimedia presentation on Teaching Children of Poverty. The presentation must be fully developed, following the format discussed in class. Format and rubric will be provided that detail assessment categories. (50 points total)
- **TCOP On-Line Journal Article Submission:** The graduate student in education will work as a member of a small group (no more than 5 per group) to write a submission to Teaching Children of Poverty On Line Journal. The submission must be fully developed, following all format specifications outlined by the COE. Format and rubric will be provided that detail assessment categories. (50 points total)
- **Center of Excellence Essay Contest Entry:** The graduate student in education will submit an essay in the COE Essay Contest, following all format specifications outlined by the COE. Format and rubric will be provided that detail assessment categories. (Up to 25 points EXTRA CREDIT)

Graded Activities Related to the Culture of Poverty
- **Middle Class vs. Poverty: Comparison of Cultures:** The graduate student in education will work as a member of a group to research cultural differences. The group will develop a T-Chart, Venn Diagram, or other graphic organizer that illustrates the results of that research. Organizers will be shared with the class. Format and rubric will be provided that detail assessment categories. (10 points total)
- **Communication Guidelines** The graduate student in education will work as a member of a group to research best practices for communication with children and families that live in poverty. The group will develop a visual display (SMART board slides, chart or other graphic organizer) that illustrates the results of that research. Visual displays will be shared with the class. Format and rubric will be provided that detail assessment categories. (10 points total)
- **Service Learning Project** The graduate student in education will work as a member of a group to plan and execute a service learning project that benefits children of poverty or their families. The project must be
assigned in advance by the professor and be completed within the semester of course enrollment. Format and rubric will be provided that detail assessment categories. (45 points total)

Assignments Related to the Classroom Community
- **Personal Motivators of Children of Poverty:** The graduate student in education will conduct interviews with children of poverty in local schools and their teachers to determine personal motivators. Student groups will brainstorm ways that classrooms, curriculum, and teaching would have to be re-designed in order to provide for meaningful, engaged learning on the part of children of poverty. Individuals or groups of students should work together to complete the Personal Motivators DATA COLLECTION CHART based on the readings, structured conversations and data collection conducted with local teachers. Formats and rubric will be provided that detail assessment categories. (10 points total)

- **Relationship-Driven Classroom Community Management Plan:** The graduate student in education will compile a strategic plan for developing and managing a relationship-driven classroom community. The plan will serve as a model for use with future students, therefore it is not expected that age-specific details will be included. The plan should be based on knowledge of child growth and development, children of poverty, theories of education, classroom management and behavior guidance strategies. The plan must have flexibility for use with children of varying chronological/developmental ages/abilities. A format and rubric will be provided that detail assessment categories. (50 points)

Assignments Related to Family and Community Partnerships
- **Family and Community Partnerships Plan:** The graduate student in education will develop an outline of activities based on “Epstein’s Six Types of Involvement” that will be implemented throughout the school year to facilitate family involvement/education in the classroom and especially with children of poverty and their families. A format and rubric will be provided that detail assessment categories. (50 points)

- **Home Visit/P-T-C Conference Plans** The graduate student in education will develop a home visit plan. The plan should include objectives for parent, child and teacher. A format and rubric will be provided that detail assessment categories. (6 points) The graduate student in education will develop a plan for conferencing with a parent and child. The plan should identify how a 30-minute conference will be structured to share information regarding the child’s progress with the parent and child. The plan should include objectives for parent, child and teacher. A format and rubric will be provided that detail assessment categories. (20 points)

Assignments Related to Curriculum Design, Instructional Strategies & Assessment
- **Aligned Assessments:** Working in small groups, graduate students in education will select 4 state standards and create instructional activities and accompanying assessments that are aligned with the standards and that are appropriate for children of poverty. A format and rubric will be provided that detail assessment categories. [www.myscschools.org](http://www.myscschools.org) (20 points total)

- **Assessment Plan:** The graduate student in education will compile a strategic plan for assessing the growth, development, and achievement of students. The plan will serve as a model for use with future students, therefore it is not expected that age-specific details will be included. The plan should be based upon knowledge and philosophy of child growth and development, and theories and principles of education and assessment. The plan must reflect flexibility for use with children of varying chronological/developmental ages/abilities. A format and rubric will be provided that detail assessment categories. (50 points)

Assignments Related to Teachers as Learners, Leaders and Advocates
- **Advocacy:** The graduate student in education will work as a member of a group to plan and execute an activity that is designed to promote awareness of the needs of children of poverty or to otherwise advocate
for them. The project must be approved in advance by the professor and be completed within the semester of course enrollment. Format and rubric will be provided that detail assessment categories. (25 points total)

- **Professional Growth:** The graduate student in education will participate in a minimum of two professional organization events or activities approved in advance by the professor. A one page written report must be submitted. Format and rubric will be provided that detail assessment categories (40 points total)

- **Course Documentation Record:** The graduate student in education will complete a written record at the conclusion of each class meeting that documents attendance, participation, and key topics discussed during the class meeting. The record will be submitted during the class meeting prior to the final exam period. Format and rubric will be provided that detail assessment categories. (Course Credit / No Course Credit)

The student’s grade is determined as follows:
Appendix C: New Course Resources

Capital:
This course will require a traditional classroom with internet capabilities. No other capital expenditures will be necessary. While this course will become a component of the COE Scholars, it will be offered for study prior to the implementation of that program.

Human Resources:
This course is planned for Late Spring or Summer Session and will require salary and fringes for one faculty member. Funds have been included in the Center of Excellence Budget.
Appendix A: New Course Form

FRANCIS MARION UNIVERSITY: DESCRIPTION OF PROPOSED NEW COURSE or MODIFICATION OF AN EXISTING COURSE

Department/School  EDUCATION   Date  8/19/11
Course No. or Level  EDUC 599
Title  Teaching and Assessing Children of Poverty
Semester hours  3   Clock hours:  Lecture  3   Laboratory 0
Prerequisite  EDUC 555 or Permission of the Graduate School of Education

Enrollment expectation  28

Date of Implementation  SUMMER 2012-FALL 2012

Date of School/Department approval  XXXX

Catalog description:

This course and its required clinical experiences are designed to provide graduate students with focused study of purposeful teaching and assessment, specifically as they relate to children of poverty. It includes use of the Revised Bloom’s Taxonomy to facilitate an understanding of the cognitive processes and types of knowledge uniquely represented and aligned with the six mandated Teaching Children of Poverty Standards and eight strategies. Students will engage in an in-depth study of the Action Research process, followed by use of the model to methodically develop, implement, and assess instructional strategies. Authentic formative and summative assessment processes will be explored,
and data collected from these measures will be used to study the effectiveness of in-class instruction and assessment in schools serving children of poverty.

Purpose: 1. For Whom (generally?)
This course is designed for graduate students in education who have an interest in teaching children from impoverished backgrounds or who have interest in seeking Add-On Certification for Teachers of Children of Poverty or designation as a Center of Excellence Scholar through the FMU School of Education.

2. What should the course do for the student?
This course and its required clinical experiences are designed to provide graduate students with focused study of purposeful teaching and assessment, specifically as they relate to children of poverty. It includes use of the Revised Bloom’s Taxonomy to facilitate an understanding of the cognitive processes and types of knowledge uniquely represented and aligned with the six mandated Teaching Children of Poverty Standards and eight strategies. Students will engage in an in-depth study of the Action Research process, followed by use of the model to methodically develop, implement, and assess instructional strategies. Authentic formative and summative assessment processes will be explored, and data collected from these measures will be used to study the effectiveness of in-class instruction and assessment in schools serving children of poverty.

Ultimately, it is designed to help solve the problems inherent in educating children of poverty by developing expertise in those that work with these children on a daily basis. This course will become the second course in a series that is expected to lead to Add-On Certification for Teachers of Children of Poverty, as developed by FMU’s Center of Excellence to Prepare Teachers of Children of Poverty and mandated by the South Carolina State Legislature through Proviso 1A.53:
"... Of the funds appropriated for Centers of Excellence, $350,000 must be allocated to the Francis Marion University Center of Excellence to Prepare Teachers of Children of Poverty to expand statewide training for individuals who teach children of poverty through weekend college, non-traditional or alternative learning opportunities. The center also is charged with developing a sequence of knowledge and skills and program of study for add-on certification for teachers specializing in teaching children of poverty."

Teaching method planned:
Each class will be a combination of demonstration/modeling, discussion, and direct teaching of techniques followed by hands-on practice by students. Graduate students in education will have opportunities to work independently and collaboratively with other graduate students in education. Peer coaching and peer review techniques will be used to facilitate instruction, learning and assessment.

This course will include the use of the following teaching methods:
- Lecture
- Small and Large Group Traditional and Action Research-Based Activities
- Role play
- Journaling
- Field Trips and Guest Speakers
- Independent Observation and Practice
Textbook and/or materials planned (including electronic/multimedia):

Course Content:  (Please explain the content of the course in enough detail so that the Academic Affairs Committee can make an informed judgment. Include a syllabus for the course.)

This course and its required clinical experiences are designed to provide graduate students with focused study of purposeful teaching and assessment, specifically as they relate to children of poverty. It includes use of the Revised Bloom’s Taxonomy to facilitate an understanding of the cognitive processes and types of knowledge uniquely represented and aligned with the six mandated Teaching Children of Poverty Standards and eight strategies. Students will engage in an in-depth study of the Action Research process, followed by use of the model to methodically develop, implement, and assess instructional strategies. Authentic formative and summative assessment processes will be explored, and data collected from these measures will be used to study the effectiveness of in-class instruction and assessment in schools serving children of poverty.

The following outline illustrates how content will be addressed in each area of study:

1. The Action Research Model
   a. Identifying goals for action research
   b. Collection and organization of data
   c. Interpretation of data
   d. Action based on data
   e. Evaluate results
   f. Plan next steps

2. Action Research: The Classroom Community
   a. Self-efficacy and Achievement
   b. Motivation and Engagement
   c. School-based Relationships and Role Models
   d. Relationship Driven Classroom Management Plans

3. Action Research: Curriculum Design, Instructional Strategies & Assessment
   a. Background Knowledge
   b. Language and Literacy
      i. Language-oriented background knowledge and experiences
      ii. Language rich classrooms
      iii. Struggling readers
   c. Curriculum Design
      i. Growth and development as it drives curriculum design
ii. Alignment of curriculum with instruction and assessment using the Revised Bloom’s Taxonomy
iii. Appropriate instructional strategies
iv. Metacognitive strategies that facilitate student learning
v. Horizontal and vertical teaching teams

d. Assessment
i. Authentic assessment
ii. Formative assessment strategies
iii. Summative assessment strategies
iv. Assessment data and effective instructional planning
v. Assessment data organized by poverty subgroups

4. Teachers as Learners, Leaders and Advocates
   a. The Teacher as a Learner
      i. Self-reflection and self-evaluation
      ii. The responsibilities of role models
      iii. Teacher qualities that result in student success
   b. The Teacher as a Leader
      i. Ways teachers lead
      ii. Leadership through professional organization membership/participation
   c. The Teacher as an Advocate for Children of Poverty
      i. The importance of advocacy
      ii. Strategies for advocacy

(Syllabus attached)

When completed, forward to the Office of the Provost. 9/03

School of Education Conceptual Framework:
The School of Education prepares competent and caring teachers.

I. Competent teachers possess
   A. Knowledge of content in their area of teaching
   B. Professional knowledge and skills
      1. Ability to plan instruction
      2. Ability to apply skills and knowledge in a clinical setting
      3. Ability to cause learning in P-12 students
      4. Ability to assess learning and learners
      5. Ability to work with children of poverty
      6. Ability to use technology

II. Caring teachers possess
   Professional Dispositions
   A. Exhibits professional attributes
   B. Respects the Learning Process in demonstrating instructional/assessment flexibility and accommodations to individual differences that reflect the belief that all students can learn regardless of their backgrounds.
   C. Upholds Ethical and Professional Standards
   D. Shows respect for families, cultures and communities and demonstrates a sense of fairness and respect to all participants within each group.
   E. Shows respect for colleagues, P-12 students, faculty and staff

FMU Center of Excellence Teaching Children of Poverty Standards

Standard 1. Life in Poverty: Teacher candidates exemplify their understanding of students’ behavior and learning differences that may occur as a result of a life in poverty. Teacher candidates apply acquired knowledge, skills and dispositions grounded in current research to create learning environments that value, engage and support children of poverty as capable learners.

Standard 2. Language and Literacy: Teacher candidates exemplify their understanding of the unique aspects of language development that influence children of poverty’s abilities to be successful members of a classroom’s community structure. Teacher candidates apply acquired knowledge, skills and dispositions grounded in current research to create learning environments and home-school-community partnerships that are specifically designed to support children of poverty as successful language learners.

Standard 3. Family and Community Partnerships: Teacher candidates exemplify their understanding of common effects of poverty on family structures and life experiences and the resources in local communities that can provide needed support. Teacher candidates apply acquired knowledge, skills and dispositions grounded in current research to create effective, achievement-oriented relationships with families and communities that embrace them as valid partners in children’s education.

Standard 4. The Classroom Community: Teacher candidates exemplify their understanding of the unique aspects of social, emotional, and cognitive development that influence impoverished children’s abilities to be successful members of a classroom’s community structure. Teacher candidates apply acquired knowledge, skills and dispositions grounded in current research to create positive, relationship-driven classroom environments that are specifically designed to support children of poverty as engaged participants in the classroom environment and as successful lifelong learners.

Standard 5. Curriculum Design, Instructional Strategies & Assessment: Teacher candidates exemplify their understanding of how the use of specific elements of curriculum design, instructional strategies and assessment support the academic achievement of children of poverty. Teacher candidates apply acquired knowledge, skills and dispositions grounded in current research to create and implement results-driven instructional strategies and assessments.

Standard 6. Teachers of Children of Poverty as Learners, Leaders, and Advocates: Teacher candidates exemplify their commitment to learning about and advocating for children of poverty. Teacher candidates apply acquired knowledge, skills and dispositions grounded in current research to create and implement professional development and advocacy plans that exemplify their understanding of their roles as...
leaders in working with children of poverty.

**Course Description**

This course and its required clinical experiences are designed to provide graduate students with focused study of purposeful teaching and assessment, specifically as they relate to children of poverty. It includes use of the Revised Bloom's Taxonomy to facilitate an understanding of the cognitive processes and types of knowledge uniquely represented and aligned with the six mandated Teaching Children of Poverty Standards and eight strategies. Students will engage in an in-depth study of the Action Research process, followed by use of the model to methodically develop, implement, and assess instructional strategies. Authentic formative and summative assessment processes will be explored, and data collected from these measures will be used to study the effectiveness of in-class instruction and assessment in schools serving children of poverty.

**Course Objectives and Standards Alignment**

*Upon completion of the course the student will be able to:*

<table>
<thead>

**Course Materials**

*Required Texts*

NONE

*Recommended Texts*

*Other Course Materials*

You will need one recordable DVD upon which to record your instructional lessons for submission to your professor for viewing. VHS tapes are not acceptable; you may submit a jump drive. You will need access to video equipment for use in recording your instructional lessons. Equipment is available through the Education Office; however it must be reserved well in advance of the date it is needed.

**Content Outline**

1. The Action Research Model
   a. Identifying goals for action research
   b. Collection and organization of data
   c. Interpretation of data
   d. Action based on data
   e. Evaluate results
f. Plan next steps

2. Action Research: The Classroom Community
   a. Self-efficacy and Achievement
   b. Motivation and Engagement
   c. School-based Relationships and Role Models
   d. Relationship Driven Classroom Management Plans

3. Action Research: Curriculum Design, Instructional Strategies & Assessment
   a. Background Knowledge
   b. Language and Literacy
      i. Language-oriented background knowledge and experiences
      ii. Language rich classrooms
      iii. Struggling readers
   c. Curriculum Design
      i. Growth and development as it drives curriculum design
      ii. Alignment of curriculum with instruction and assessment using the Revised Bloom’s Taxonomy
      iii. Appropriate instructional strategies
      iv. Metacognitive strategies that facilitate student learning
      v. Horizontal and vertical teaching teams
   d. Assessment
      i. Authentic assessment
      ii. Formative assessment strategies
      iii. Summative assessment strategies
      iv. Assessment data and effective instructional planning
      v. Assessment data organized by poverty subgroups

4. Teachers as Learners, Leaders and Advocates
   a. The Teacher as a Learner
      i. Self-reflection and self-evaluation
      ii. The responsibilities of role models
      iii. Teacher qualities that result in student success
   b. The Teacher as a Leader
      i. Ways teachers lead
      ii. Leadership through professional organization membership/participation
   c. The Teacher as an Advocate for Children of Poverty
      i. The importance of advocacy
      ii. Strategies for advocacy

Methods of Presentation
Each class will be a combination of demonstration/modeling, discussion, and direct teaching of techniques followed by hands-on practice by teacher candidates. Teacher candidates will have opportunities to work independently and collaboratively with other candidates. Peer coaching and peer review techniques will be used to facilitate instruction, learning and assessment.

Course Requirements
1. Attendance and participation in all classes and related activities.
2. Completion of required text or internet readings and other preparations before class dates indicated on schedule.
3. Successful completion of all assignments/projects.
4. Successful completion of quizzes/demonstrations.

Course Policies (Attendance, Grading, Professional Behavior)

Professional Behavior
Dispositions are as important as academic work. Teacher candidates are expected to conduct themselves in a professional manner at all times. This includes adhering to the FMU attendance policy [no more than two absences]; punctuality for all classes and meetings, because late arrivals to class are a disruption and a diversion from the class session already in progress [note: two tardies/early departures equal one absence], and the active cultivation of positive peer and teacher
relationships.

In every Early Childhood Education course, all teacher candidates have the right to learn in a respectful environment and the instructor has the right to teach in a respectful environment. Engaging in personal conversations, preparing assignments for another class, checking cell phones, emails, or text messages, or otherwise being inattentive distracts other class participants, including your professor, and will not be tolerated. It is expected that all teacher candidates participate in class appropriately.

*Any failure to demonstrate appropriate professional dispositions will result in disciplinary actions that comply with FMU SOE policies that may include withdrawal from the course.*

### School of Education News and Announcements on Website

Each week remember to check the “News and Announcements” page for any upcoming deadlines required for your completion in the education program and for special information regarding your major. You may do this by going to the Francis Marion Website, [www.fmarion.edu](http://www.fmarion.edu), clicking on the drop-down box under “Quick Links”, choosing “School of Education”, and then clicking “News and Announcements” under the column on the left side of the page.

### LIVETEXT

LIVETEXT is the computerized assessment system utilized by the School of Education to collect data required for NCATE accreditation. Throughout their programs, teacher candidates will submit assignments through LIVETEXT for assessment.

### Collaboration

Teacher candidates are encouraged to take advantage of peers as resources as appropriate throughout the course, and, when approved in advance by the professor, candidates may collaborate on assignments. If candidates participate in such collaborative efforts, a “Collaboration Rubric” must be submitted by each member of the team.

### Assignment Deadlines

Assignments and responsibilities are due at the beginning of class on the date specified. Assignments will be considered unacceptable past the due date, unless approved in advance by the professor, and late assignment grades may be dropped one letter grade for each day late IF the late submission is accepted by the professor.

Teacher candidates must retain all graded assignments throughout the course. These must be presented should any discrepancy occur between grades received and recorded. Should teacher candidates have questions about an assignment, the professor must be contacted WELL IN ADVANCE of the due date for clarification or other assistance.

### Neatness/Accuracy

All assignments must be prepared with great attention to detail, neatness, and accuracy. Assignments must be typed (single spaced, 10-12 point font) unless otherwise noted by the instructor. ANY concerns regarding writing skills will be immediately called to the student’s attention, and will generally include referral to the FMU Writing Center for assistance and support. While the focus of the ECE program is content, it is expected that all candidates submit assignments that demonstrate excellent writing skills.

### Rubrics

Rubrics for assignments are provided when appropriate and all rubrics must be completed in full by the teacher candidate and submitted along with the assignment in order for the assignment to be considered complete. Assignments will not be graded without teacher candidate-completed rubrics, and will be deemed “late.” The professor will determine on a case-by-case basis if the late assignment will be accepted after completed rubrics are attached.

### Assignments and Assessments

The EDUC 599 student will compile a portfolio comprised of the assignments listed below: *(General descriptions of each project are included below, and examples, specific oral and written instructions, and scoring rubrics regarding each project are provided separately.)*

LIVETEXT assignments/assessments are highlighted in pink.

<table>
<thead>
<tr>

<th>Activity Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td><strong>Relationship-Based Classroom Community Plan:</strong> The student will implement a strategic plan for developing and managing a relationship-driven classroom community. The plan should be based on knowledge of child growth and development, children of poverty, theories of education, classroom management and behavior guidance strategies. A format and rubric will be provided that detail assessment categories.</td>
</tr>
<tr>
<td>2</td>
<td><strong>Data Chart:</strong> The student will develop and use a classroom data chart to drive instruction. Formats and rubric will be provided that detail assessment categories.</td>
</tr>
<tr>
<td></td>
<td><strong>Action Research Agenda:</strong> The student will implement an Action Research Agenda that reflects a range</td>
</tr>
</tbody>
</table>
of aspects of teaching and learning. The Research Agenda will reflect the student’s personal strengths, areas for improvement, and attitudes, especially as they relate to working with children of poverty. Formats and rubric will be provided that detail assessment categories.

**Professional Readings and Reports:** The student will read and review, according to the format provided, 2 journal articles, one in each of two specific areas of TCOP: ‘The Classroom Community,’ and Curriculum Design’ and ‘Instructional Strategies, and Assessment.’ Rubrics will be provided that detail assessment categories.

**Project Plan:** The teacher will work alone or as a member of a small group to develop and implement an inquiry-based, multidisciplinary project plan. Rubrics and format instructions are provided that detail specific assessment categories.

**Purposeful Instruction Videotaped Lessons:** The student will plan, teach and digitally record (DVD) two lessons delivered to a group of children. A detailed lesson plan and self-evaluation must be submitted as provided and discussed in class. Students will work in teams to view peer videos and to complete evaluations (see #7 below). The DVD must be submitted in a zip seal bag with all supporting materials (lesson plan, self-evaluation and narrative, and 1 peer review). Rubrics are provided that detail assessment categories.

**Peer Observation and Evaluation of Purposeful Instruction:** Teacher candidates will formally observe and evaluate instruction implemented by at least one peer teacher. Each student must serve as a peer observer AND each student must have a lesson observed. Format and rubrics are attached that detail assessment categories.

**Bi-Weekly Reflection Journal:** The student will complete bi-weekly entries into a reflection journal in which issues related to teaching children of poverty are the subject. Format and rubrics are attached that detail assessment categories. A total of 15 journals should be completed by the end of the course.

**Leadership:** The student will identify areas for leadership within the school culture, and implement specific strategies for assuming that leadership. Formats and rubric will be provided that detail assessment categories.

**Final Presentation:** The student will plan and deliver a final presentation that illustrates how instruction and/or assessment have changed to accommodate the needs of children of poverty. This presentation must include visual artifacts, such as PowerPoint slides, a video, or other artifacts. Formats and rubric will be provided that detail assessment categories.

**Class Participation and Dispositions:** The student will participate in class discussions and related activities in a genuine and informed manner to exemplify the completion of assignments and preparation for class and in compliance with all expectations for appropriate dispositions. All course materials must be maintained in a neatly organized portfolio throughout the semester. Format and rubrics are attached that detail assessment categories.

**Professional Growth:** The teacher candidate will participate in a minimum of one Education or Center of Excellence community or professional organization event or activity approved in advance by the professor. A one page written report must be submitted. Format and rubrics are attached that detail assessment categories. **Center of Excellence Fall Workshop:** Saturday, October 1, 2011 – 8:30 AM – noon.

**Service:** The teacher candidate will participate in a minimum of one School or Center of Excellence service learning/volunteerism activity approved in advance by the professor. A one page written report must be submitted. This activity must be one for which the candidate receives NO FINANCIAL PAYMENT. A rubric and format are provided detailing assessment categories.

**Grading Scale:** Grades on each activity and assignment will be averaged for final grade.

**NOTE:** A Grade of ‘C-' is NO CREDIT for EDUC courses!
Appendix C: New Course Rationale/Justification

More than half of all South Carolina’s schools have 70% or more of their students living in poverty (up from 48% in 2004), and 20% of South Carolina’s schools have more than ninety percent of their children living in poverty. There are specific risk factors for children in poverty, including exposure to cultural risk factors that often impairs brain development which affects social and emotional development. Children living in poverty are more likely to fall behind their classmates in school, be assigned to lower ‘tracks’ in education, be retained in grade, be labeled as ‘problem’ students, be absent, truant, and to drop out of school altogether, and earn lower scores on standardized tests of knowledge and achievement. Even if children are equal in the areas of ethnicity, family structure, and mothers’ education, research has found that children born in or near poverty are less than half as likely to be successful on tests of academic achievement as their wealthier peers.

A new understanding, however, indicates that brains can and do change everyday—for the better or for the worse. In fact, there is nearly a 2-1 advantage of environmental influences over genetic ones, including those at school. Therefore, teacher quality matters more than previously thought. Research indicates that 43% of the student’s academic performance can be traced to the quality of the teacher in the classroom. Another recent study shows that low-achieving students gain an average of 14 percentile points with the least effective teachers; while, in contrast, the most effective teachers produce average gains of 53 percentile points with low-achieving students.

Over the last seven years, the Francis Marion University Center of Excellence to Prepare Teachers of Children of Poverty has been studying what makes teachers most effective with low-income children. Six Standards for Teachers of Children of Poverty have been developed, along with specific strategies that must be employed by those teachers to increase brain development, increase student investment in learning, and subsequently to increase achievement and likelihood of success. These standards and strategies are now infused into every teacher education program at Francis Marion.

Because of Proviso 1A.38, the Center has been able to provide outreach to in-service teachers who desperately need help. A Saturday morning workshop for teachers has been developed to elevate awareness and to introduce the idea to teachers that they can do much to change the fate for children of poverty, and teachers have been turned away at these events because registrants exceeded room capacities. Just in the last year more than 2000 teachers have been served in more than 15 sessions. They offer the following feedback:

“Thank you again for a fabulous and informative workshop! I will definitely be looking into the summer workshop/course!”

“The conference this morning was incredible! Your presentation was powerful!! The message [was] inspiring!”

“Thank you again for a wonderful presentation with very practical help. I really enjoyed hearing you, I felt like I left rejuvenated.”

Participants commonly relate that they did not know there were real and specific strategies that can work, and they express that they want more information about them. While the workshops elevate awareness, teachers know they need sustained staff development and training. They know that every instructional minute must be guided by research-based strategies, and they are desperate for what the Center can offer. They want more intensive opportunities to learn. Therefore, a graduate level course has been developed and is offered for teachers around the state. Enrollment is always at capacity, with more requests from teachers and entire schools than can presently be accommodated.

Still, teachers and schools want and need more because they understand that a single workshop, or even a single course, is not enough. Therefore, the Center assembled an impressive task force comprised of P-12 and college and university educators from across the state to collaborate in the development of a proposal for Add-On Certification for Teachers of Children of Poverty. This project is slated for presentation to the Legislature in Fall 2011, and FMU has been charged with development of model course documents.
Even before the Add-On Certification is approved, the Center has committed personnel and financial resources to piloting the recommended program of study with a local Title One school in which the entire school faculty and administration have also committed to the project. Research suggests that this type of high-quality professional learning opportunity, in which teachers have the opportunity for in-depth exploration of the needs of this underserved population, will equip them to become those ‘most effective teachers’ who truly change the future for the children they serve, and district leaders predict that the project could ‘transform the school.’ Because a rigorous research agenda has been developed to effectively measure the effects of this project, universities across the state will have access to the model developed and piloted through this project to inform their development of ‘Teaching Children of Poverty’ curricula.

Upon university approval, this course will become the second course in the series that is expected to lead to Add-On Certification for Teachers of Children of Poverty, as awarded by the South Carolina Department of Education.

Appendix D: New Course Resources

**Capital:**
This course will require a traditional classroom with internet capabilities. No other capital expenditures will be necessary.

**Human Resources:**
This course is planned for Summer Session 2012 – Fall 2012 and will require salary and fringes for one faculty member. Funds will be included in the Center of Excellence Budget, as required.
FRANCIS MARION UNIVERSITY: DESCRIPTION OF PROPOSED
NEW COURSE or MODIFICATION OF AN EXISTING COURSE

Department/School: Education Date: September 22, 2011

Course No. or Level: EDUC 771 Title: Introduction to Early Childhood Special Education

Semester hours: 3 Clock hours: 45 Lecture: 35 Laboratory: 10 Prerequisites: None

Enrollment expectation: 20 Name of person preparing course description: Dr. Cindi Nixon

Department Chairperson’s/Dean's Signature

Provost's Signature

Date of Implementation: Summer 2012

Date of School/Department approval

Catalog description:
This course is to provide the student with a broad perspective of the best practices, issues, and concerns facing individuals working in the field of early childhood special education. State and federal laws governing and regulating early childhood special education, program models, community resources, program development, and state agencies and organizations will be addressed. Special emphasis is placed on providing the students with knowledge of philosophies, roles and services of various professionals providing services to young children with special needs.

Purpose: 1. For Whom: Teachers (public, private and daycare) working with preschool students with disabilities and community service providers working with preschool children (birth to six years).

2. What should the course do for the student? This course will provide a basic introduction and perspective for working with young children (birth to six years), who have mild to moderate disabilities, or are at risk for disabilities.

Teaching method planned: Lecture, demonstration and classroom observation

Course Content: syllabus attached

When completed, forward to the Office of the Provost. 9/15
EDUC 771: Introduction to Early Childhood Special Education

Office hours: TBA
Class Meets: TBA/ Summer 2012

Course Description:
The purpose of this course is to provide the student with a broad perspective of the best practices, issues, and concerns facing individuals working in the field of early childhood special education. State and federal laws governing and regulating early childhood special education, program models, community resources, program development, and state agencies and organizations are addressed. Special emphasis is placed on providing the student with the knowledge of philosophies, roles and services of professionals involved with young children with special needs.

Course goals and objectives:
At the completion of the course, the participant will be able to:
1. Explore the philosophical, social, cultural and legal factors that have shaped and continue to affect education, and specifically early childhood special education, in the U.S.
2. Describe the historical development of the field of early childhood special education.
3. Discuss issues and trends in special education, including legislation and litigation, including legislative and judicial mandates related to early childhood special education.
4. Discuss intervention and service delivery models currently used in early childhood special education.
5. Demonstrate an understanding of evidence-based principles that influence education, including early childhood special education.
6. Describe factors that place young children at-risk for disabilities.
7. Describe characteristics of major disabilities.
8. Describe the role of assessment in identification, eligibility, and service delivery for young children and their families.
9. Identify strategies for coordinating community services to children and families.
10. Describe current regulations and procedures governing special education to include individualized education program (IEP) development and individualized family service plan (IFSP).
11. Describe typical settings and service delivery models appropriate for working with infants, toddlers, and young children who are at-risk or who have disabilities.
12. Demonstrate an understanding of models of interpersonal and inter-professional collaboration in working with families on behalf of their young children.
13. Explore the role of participants’ own personal, social, and cultural experiences and perspectives in their professional decision making.

15. Demonstrate person-first respect and understanding of young children and their families.

16. Explain the standards of professionalism and ethics related to serving young children with disabilities and at-risk conditions.

Course Content:
Session 1 – History of Early Childhood Special Education
Session 2 – The Assessment Process
Session 3 – Intervention Services
Session 4 – Parents and Professionals Working Together
Session 5 – Communication Abilities
Session 6 – Cognitive Abilities
Session 7 – Motor Abilities
Session 8 – Social/Emotional Abilities
Session 9 – Sensory Abilities
Session 10 – Health Impairments
Session 11 – Adaptive Abilities
Session 12 – The Importance of Play
Session 13 – Behavior Management
Session 14 – Transitions: Preparing for the Next Step

Course Requirements:
1. The completion of all readings assigned for the course is required. Because the class will be structured around discussion and small group activities, it is imperative that students keep up with the readings and participate in class.

2. Class attendance is important. If, due to an emergency, students will not be in class, they must contact the instructor.

3. All cell phones must be turned off before class begins. Laptops and other electronic devices are to be used for educational and learning purposes only and should not be used during class time to check email, surf the web, or communicate with people outside of the class unless part of the class activity.

4. It is expected that assignments will be turned in on time (the beginning of the class in which they are due). However, it is recognized that graduate students occasionally have serious problems that prevent work completion. If such a dilemma arises, students should speak to the instructor in a timely fashion.

Attendance:
Attendance in class is important to students’ learning; therefore, students are expected to make every effort to attend class sessions. Absences, tardiness, and leaving early may negatively affect course grades. The following policy is from the university course catalog:
Students are expected to attend the class periods of the courses for which they register. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor’s grading policy, as stated in the course syllabus.

**Written Assignments:**
All written assignments prepared outside of class will be evaluated for content and presentation as graduate-level writing. The American Psychological Association, Seventh Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If graduate students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual.

**Assignments**

**Attendance and Participation (5 points per session)**
Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class activities will be evaluated based on the following criteria:

- Teacher candidates attend class, arrive on time, and stay for the entire class period.
- Candidates complete readings and prepare for class activities prior to class as is evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
- Candidates are actively involved in in-class learning experiences as is evidenced by (1) participating in all activities, (2) engaging in small and large group discussions, (3) completing written work related to the activities, and (4) supporting the participation and learning of classmates.
- Candidates show evidence of critical reflective thinking through in-class discussions, activities, and written reflections.

**Group Presentation on Current Issues in Early Childhood Special Education (25 points)**
Each teacher candidate will participate in a group reading activity. Groups will be assigned by the instructor. Each group will locate current research and issues related to early childhood special education (over-representation of African-American children in special education, services to preschool children whose home language is other than English, challenging behaviors, RTI, inclusive classrooms, the use of innovative technology, transitions). Each candidate is responsible for locating appropriate research articles and working as a group to develop a 15-20 minute presentation regarding the issue assigned. Pay particular attention to the content applicability, relating it to your development as an early childhood special educator and how it applies/impacts culturally, linguistically, and ability diverse young children and their families. Relevant handouts should be provided and a PowerPoint used for your presentation.

**Professional Code of Ethics: (25 points)**
Graduate students will review the Professional Standards from NAEYC and DEC. They will reflect on readings, class discussions, and their own knowledge about children, families, instruction, and early childhood practices. Students will develop a minimum of 10 professional ethics/standards of professionalism related to serving culturally, linguistically, and ability diverse young children with disabilities and their families and how they will strive to honor and abide by as they work in the field of early childhood special education. Each ethic should have a brief but thorough rationale accompanying it. Graduate students do not need to cite specific research, but it should be clear to the reader that the values are informed by the candidate’s studies and professional experiences. This paper should have an introduction and conclusion in narrative format. The paper should be approximately 3-4 pages in length and double-spaced.

**Pamphlet about a Disability (20 points)**

Graduate students will develop a pamphlet that could be used by families as a resource for understanding the complex nature of a disability that a preschool child might have. They will include 1) the defining features/characteristics of the disability; 2) how it is expressed from birth through age six across the main developmental areas (Social-Emotional, Language and Literacy, Cognitive, Physical, and Sensory Areas); 3) major services usually provided; 4) whether medications are used, which ones, and potential side effects that may affect classroom performance; 5) the typical specialists that serve these children; and 6) three goals which could be included in an IFSP or IEP.

Graduate students should be prepared to discuss their pamphlet in class. They will provide enough copies for the class members. In addition to the handout, they will prepare a brief paper for the instructor in which they will critically evaluate what they learned from the perspective of families from diverse cultural and language groups. On a separate page, list references (legitimate resources must be used, do not use a reference that has not been reviewed). Provide references that have been found especially useful and provide an appropriate annotation for each.

**Field Experience (100 points)**

Graduate students will participate in 10 hours of field experience in observing and assisting, as appropriate, one or more students from birth through age six with a developmental delay, identified disability or in a program for “at risk” children. This observation may be with a group of children or an individual in an inclusive environment. This will be completed within the public schools or early intervention programs. Acceptable sites may include ECSE public school classrooms, Head Start programs or approved day care centers. Following the observations, the teacher candidate will provide a 2-page summary of the total field experience. This paper will provide details about how the course content was integrated into what they experienced, how the experience impacted their understanding of working with young children with developmental delays/exceptional learning needs and how this information will be integrated into their professional development now and in the future.

**Midterm and Final Exam (150 points)**

A midterm and final exam will be given covering the information from the assigned readings, class presentations and discussions. Test items will be in the form of multiple choice, short answer and essay. Each exam will be worth 75 points.
Department/School: **Education**  Date: **September 20, 2011**

Provost's Signature

Date of Implementation: **Summer 2012**

Date of School/Department approval

**Catalog description:**

This course provides current and prospective teachers with an overview of the social and emotional development of young children with mild to moderate disabilities and strategies to promote the acquisition of social/emotional skills necessary for participation in a variety of settings. The course includes an overview of basic classroom management theories; an overview of procedures for monitoring and evaluating the behavior of infants, toddlers and preschool children with exceptional learning needs; a discussion of strategies to prevent and reduce inappropriate behavior; and strategies to promote conflict resolution. Additionally, the course will include information regarding the impact
of teacher attitudes on the behavior of young children with exceptional learning needs, and provide experience in creating learning environments that promote positive interactions, positive cultural experiences, and active participation.

Purpose:  
1. For Whom: Teachers (public, private and daycare) working with preschool students with disabilities and community service providers working with preschool children (birth to six years).

2. What should the course do for the student? This course will provide basic knowledge of strategies to promote positive social and emotional development of young children (birth-6), who have mild to moderate disabilities, or are at risk for disabilities.

Teaching method planned: Lecture, demonstration and clinical

Textbook and/or materials planned (including electronic/multimedia):

Course Content: (Please explain the content of the course in enough detail so that the Academic Affairs Committee can make an informed judgment. Include a syllabus for the course.) Included on pages that follow

Course Description:
This course provides current and prospective teachers with an overview of the social and emotional development of young children with mild to moderate disabilities and strategies to promote the acquisition of social/emotional skills necessary for participation in a variety of settings. The course includes an overview of basic classroom management theories, an overview of procedures for monitoring and evaluating the behavior of infants, toddlers and preschool children with exceptional learning needs, a discussion of strategies to prevent and reduce inappropriate behavior, and strategies to promote conflict resolution. Additionally, the course will include information regarding the impact of teacher attitudes on the behavior of young children with exceptional learning needs and experience in creating learning environments that promote positive interactions, positive cultural experiences, and active participation.

Conceptual Framework
The School of Education prepares competent and caring teachers.

The graduate level educator will demonstrate teacher competencies as measured by the following:

IA. Knowledge of content in their area of teaching

IB. Professional knowledge and skills
   1. Ability to plan instruction
   2. Ability to apply skills and knowledge in a clinical setting
   3. Ability to cause learning in P -12 students
   4. Ability to assess learning and learners
   5. Ability to work with children of poverty
   6. Ability to use technology

The graduate level educator will demonstrate attributes of a caring teacher who will:

IIA. Exhibit professional attributes

IIB. Respect the Learning Process in demonstrating instructional/assessment flexibility and accommodations to individual differences that reflect the belief that all students can learn regardless of their backgrounds.

IIC. Uphold Ethical and Professional Standards

IID. Show respect for families, cultures and communities and demonstrate a sense of fairness and respect to all participants within each group.

Expected outcomes:
As a result of class attendance and participation, completion of assigned readings, written assignments and field observation, students should

- Understand the impact of social and physical environments on development and learning EC7S8
- Identify social skills needed for educational and other environments CC5K5
- Demonstrate understanding of classroom management theories and strategies for individuals with exceptional learning needs, including strategies for crisis prevention and intervention. CC5K2, CC5K6
- Use strategies to teach social skills and conflict resolution EC4S6
- Implement and evaluate preventative and reductive strategies to address challenging behaviors EC4S8
- Describe teacher attitudes and behaviors that influence behavior of individuals with exceptional learning needs CC5K4
- Design learning environments that encourage active participation in individual and group activities CC5S4
- Design and manage daily routines CC5S12 and modify the learning environment to manage behaviors CC5S5
- Structure social environments, using peer models and proximity, and responsive adults, to promote interactions among peers, parents, and caregivers EC5S4
- Provide a stimulus-rich indoor and outdoor environment that employs materials, media and adaptive and assistive technology, responsive to individual differences EC5S5
- Use evaluation procedures and recommend referral with ongoing follow-up to community health and social services EC5S7

**Required Text:**

**Methods of Presentation**
Each class will be a combination of lecture, demonstration/modeling, simulation, group discussions, analysis of case studies, and problem solving activities. Students will have opportunities to work independently and collaboratively. Participants may elect to attend on campus or through Blackboard Collaborate.

**Course Requirements**

1. Read required text and assigned readings.
2. Participate in class discussions.

Complete group and individual assignments including:
1. **Exams**
The midterm exam will address topics from the first 6 sessions. The exam will consist of 25 multiple choice questions and 5 brief essay questions. Each section will be weighted equally. The format of the final exam will be the same; however, this exam will only address topics from sessions 7-12.

2. **Group Case Study Presentation**
Following a discussion of challenging behaviors, the instructor will provide brief case studies of young children with challenging behaviors. Group members will select a case study to analyze. Each case study will include a series of questions. Group members will read and discuss the case studies and respond to the questions. They will present their final analysis in class.

3. **Description of a Learning Environment and Reflection**
Students will arrange an observation in an inclusive preschool classroom for at least ½ of a typical school day. Following the observation students will write a detailed description of either the indoor or outdoor learning environment. Students should include information on staff to child ratios, and describe the amount of diversity in the setting. Students should also include details about room or area arrangement, a description of materials and media and procedures for using materials, a description of the daily routine, and a description of any assistive technology that is used for students with special needs. Students should write a detailed reflection including their perceptions of the classroom/area climate. A rubric will be provided for this assignment.

4. **Social Skills Strategy Presentation**
Following a discussion on strategies for teaching social skills to young children, each student will choose a social skill appropriate for a young child and select a strategy to teach the skill. Students will provide their rationale for choosing the social skill and demonstrate the strategy in class, providing any needed materials for all participants.

5. **Community Resource List**
Students will locate community resources in the Pee Dee region that provide support to young children and their families. Students will compile and categorize a list of at least 20 community resources and provide a brief description of the services provided along with contact information.

6. **PBS Plan School Component**
Students will view video clips of a young child with challenging behaviors. Each student will choose a behavior that needs to be modified and devise a plan to modify learning environments, to improve the behavior, provide accommodations to modify the behavior, and/or teach needed skills to modify the behavior. Students will also be expected to describe consequences for both appropriate and inappropriate behaviors.

7. **PBS Plan Home Component**
Students will view video clips of a young child with challenging behaviors. Each student will choose a behavior that needs to be modified and devise a plan to assist a parent in modifying the inappropriate behavior. The plan may include creating a schedule or routine, teaching strategies to modify the behavior or teaching new behaviors.
