FRANCIS MARION UNIVERSITY: DESCRIPTION OF PROPOSED NEW COURSE or MODIFICATION OF AN EXISTING COURSE

Department/School Gender Studies (GNDR) Date 08-21-2013

Course No. or Level GNDR 497 Title Gender Studies: Special Studies

Semester hours (3) (2) (1) Clock hours: Lecture not applicable Laboratory N/A

Prerequisites Junior & Senior Gender Studies Minors or Collaterals with 3.0 + GPA in major; project approved by Gender Studies Committee for 3, 2, or 1 credit hour(s)

Enrollment expectation variable (probably very small)

Indicate any course for which this course is a (an)

Modification none
(proposed change in course title, course description, course content or method of instruction)

Substitute none
(The proposed new course replaces a deleted course as a General Education or program requirement.)

alternate 497 can count as 3, 2, or 1 hour(s) towards Gender Studies minor or collateral requirements
(The proposed new course can be taken as an alternate to an existing course.)

Name of person preparing course description Pamela A. Rooks

Department Chairperson’s/Dean's Signature _________________________________

Provost's Signature _______________________________________________________

Date of Implementation Spring 2014

Date of School/Department approval Approved by Gender Studies Committee 08-21-2013

Catalog description: 497 Gender Studies: Special Studies (3) (2) (1) Individual research project under the guidance of a faculty member. Research projects must be approved by the Gender Studies Committee and are reviewed by three faculty members from two different disciplines. Open only to juniors and seniors with grade point average of 3.0 or higher in their major courses.

Purpose: 1. For Whom (generally?) Gender Studies minors and collaterals from various disciplines.
2. What should the course do for the student? Provide independent research experience; help fulfill requirements for minor/collateral

Teaching method planned: Similar to existing Special Studies courses in every discipline, including Honors and International Studies.

Textbook and/or materials planned (including electronic/multimedia): As needed.

Course Content: (Please explain the content of the course in enough detail so that the Academic Affairs Committee can make an informed judgment. Include a syllabus for the course.)
Appendix to the Faculty Senate Agenda – September 24, 2013

Date of Implementation Fall 2014

Date of School/Department approval: Approved by Honors Committee July 31, 2013

Catalog description:

201 HONORS HUMANITIES AND SOCIAL SCIENCES SYMPOSIUM (1)
(Prerequisite: membership in FMU Honors or permission of Honors Director.) Requires students to meet once a week to discuss a recent art/cultural event (plays, concerts, Humanities/Social Science lectures, etc.) or interview area artists/humanists/arts administrators. Offered fall semester. May be taken twice for credit.

Purpose:

1. For Whom (generally?): FMU Honors students, also other students with permission of instructor and Honors Director

2. What should the course do for the student?
   HNRS 201 will provide for students in the Humanities and Social Sciences the same sort of discussion forum enjoyed by students in the Sciences who take HNRS 200/Science Symposium. More specifically, it
will allow them to engage in discussions about the arts or social sciences in a less-formal atmosphere than the traditional classroom.

**Teaching method/textbook and materials planned:** Seminar-style discussion (see attached).

**Course Content:** See attached proposed syllabus.

*When completed, forward to the Office of the Provost.*
Honors 201:  *Honors Humanities & Social Sciences Symposium*

**Monday: 2:10  CEMC 216**

Dr. Greg Fry  
HFAC 103  (843) 661-1684  
gfry@fmarion.edu

**COURSE DESCRIPTION**

This course is an arts, humanities and social sciences discussion forum; we will meet each week to discuss a recent artistic, literary or social event or to meet with invited speakers. Learning will occur through attendance at events followed by written responses and, each week, some lively discussions. The object is to familiarize you with a variety of art forms or issues pertaining to the humanities and social sciences, and ultimately to make you more discerning consumers of the culture you live in.

**ATTENDANCE**

Attendance at both *events* (which include films, performances, lectures, etc.) and at *symposia* sessions is required. Written responses to the events listed below will be due at the beginning of each symposium session. Missed seminars cannot be made-up.

WRITTEN RESPONSES
Because this course is designed not to test your knowledge but to cultivate your sensibilities, there will be no exams. You will instead provide brief written responses to each event, discussing and assessing that event. Your response should be at least one, but better two pages long and briefly summarize the work presented, its purpose, and your impressions of it—for instance, whether or not it achieved its purpose, and why or why not. To what extent, for instance, did the event address current social issues? Seek to persuade? To inform? To entertain? How, in short, did the event expect to affect or change its audience? Or, in lieu of written response, you may sometimes be asked to respond artistically--for instance with interpretive/responsive sketches of your own in response to a gallery exhibit. Indeed, suggestions about such subjective responses will be welcomed. But again: responses are due at the beginning of each symposium session.

GRADING
Grades will be determined as follows:

- Written responses will be graded according to the professor’s assessment of their thoroughness, thoughtfulness and clarity and scored Excellent/A (100), Good/B (85), Adequate/C (75) or, in the case of cursory or superficial responses, Failing/F (0). These grades will average at the end of the semester; this average will account for 80% of your course grade.

- You will receive 0-20 Attendance and Participation points, which will account for the other 20% of your course grade. Persons missing any event or symposium meeting will be docked two such points per, unless they can provide a compelling excuse, with documentation.

ACADEMIC INTEGRITY
As should be obvious, every student is responsible for turning in his or her own unique work. Cheating and plagiarism will not be tolerated. Depending upon the severity of the
offense, you may receive an absence for that week or an U for the entire course. You will also be reported to the appropriate university office. A first offense typically results in an F on that assignment or an F in the course. A second offense results in a one semester suspension. A third offense results in expulsion from the university. If you are not sure what constitutes cheating or plagiarism, ask me before completing the assignment.
FRANCIS MARION UNIVERSITY
DESCRIPTION OF PROPOSED NEW COURSE

Department/School: HONORS  Date: August 20, 2013

Course No. or level: HNRS 202  Title: Honors Leadership Symposium

Wed: 1:00 School of Business Conference Room

Dr. Hubert H. Setzler III  
FH 263C  
(843) 661-1433  
hsetzler@fmarion.edu

**COURSE DESCRIPTION**
This course is a leadership discussion forum and workshop; we will meet each week to discuss components and styles of good leadership. The material will be learned through the lecturing of experiences from different community leaders, reading assigned material, and discussing this information in class afterward. The purpose of this class is to recognize and enhance leadership skills already possessed and develop additional desired attributes.

**ATTENDANCE**
Attendance at all events and discussions is required. If more than two events or discussions are missed then a grade of F will be given in the course. **ONLY** sanctioned school events (athletics, conferences, etc.) will be counted as excused absences.

HNRS 250: Special Topics in the Social Sciences

Humor in Society

“Sociology will be especially well advised not to fixate itself in an attitude of humorless scientism that is blind and deaf to the buffoonery of the social spectacle.”

- Peter Berger (1963, p. 165) in Invitation to Sociology

Semester:
Section Number:
Building/Room: CEMC Honors Room
Instructor: Russell (Rusty) E. Ward, Jr., Ph.D.
Office: Founders Hall 242
Phone: 661-4632
Email: rward@fmarion.edu
Office Hours: 1:30-3:00 MWF, 10:00-11:30 TTH, or by appointment

What is the nature of humor? Adopting an optimistic view, when people laugh they make a commitment to what’s going; they become reminded at least temporarily about shared expectations and values. In contrast to that relatively positive perspective, the darker side of humor includes its potential for social control - to exclude or marginalize others.

Course goal: It is my hope that you leave this course with a new and meaningful way of understanding humor in society.

Course description: This interdisciplinary course employs the work of sociologists, social psychologists, and literary scholars to examine the different meanings of humor, and its varied forms. Attention is given to stand-up comedy and what it might reveal about our society.

Additional required readings: Other readings for this course are listed in the following section which outlines the course objectives. The readings may be subject to some relatively minimal modifications.

Course objectives: We will explore views of humor in society, and become familiar with contemporary issues of interest related to the study of humor. These objectives are outlined in further detail below with the following order of readings:

**Week one**: Defining humor/introducing general theoretical approaches to humor.

**Week two**: Varieties/typologies of humor

**Week three**: What makes something funny?

Oring, Preface, and Chapters 1 through 3

**Week four**: What motives engender humor?

Oring, Chapters 4 through 6

**Week five**: What messages are conveyed through humor?

Oring, Chapters 7 through 10

**Week six**: Why should we be critical of humor?

Billig, Chapters 1 and 2

**Week seven**: What historical factors are linked to the superiority theory of humor?

Billig, Chapter 3
Week eight: What historical factors are linked to the incongruity theory of humor?
Billig, Chapter 4

Week nine: What historical factors are linked to the release theory of humor?
Billig, Chapter 5

Week ten: How does humor reflect wider visions of politics, morality, and aesthetics?
Billig, Chapters 6 and 7

Week eleven: What makes laughter possible?
Billig, Chapter 8

Week twelve: What is the social importance of ridicule?
Billig, Chapters 9 and 10

Week thirteen: What is the lure of stand-up comedy?
Tafoya, Introduction, and Chapters 1 through 3

Week fourteen: When and how did stand-up comedy originate in America?
Tafoya, Chapters 4 through 6

Week fifteen: What do contemporary comedians reveal about society?
Tafoya, Chapters 7 and 8, and Conclusion

Week sixteen: Final thoughts

***As an influential professor once shared with me, to do well all you need to do is read, complete tests and written assignments, attend lecture, and pay attention. That’s it. That’s the big secret. Share it with your friend! It will create community.***

Class attendance: Class attendance will be based on the university’s attendance policy (if a student is absent more than twice the number of required class or lab sessions per week during the regular semester, the instructor has the option to assign a grade of F or W). This means that students will be failed or withdrawn from the course if they miss more than 4 Tuesday/Thursday classes or six Monday/Wednesday/Friday classes. Late arrivals are considered absences.
**Communication devices:** The use of cell phones, smart phones, or other mobile communication devices is disruptive, and is therefore prohibited during class. Students who consistently disrupt class (e.g., cell phones, talking, etc.) will receive one warning to cease. Further disruptions will result in withdrawal from the course.

**Evaluation:** Students whose total points are “on the line” (i.e., 1 percentage point away from cut-off point) are rewarded for a consistent pattern of offering comments in class that relate to the readings and generate discussion. This opportunity implies the need for perfect, or near perfect class attendance. Please note there is no extra-credit.

Grades will be based on your performance in the following areas: (a) three in-class essay examinations, and (b) three projects. The three exams cover material from each text (i.e., Oring, Billig, and Tafoya).

For the first project, you are asked to attend a comedy club or an open mic night that features stand-up comedians, and prepare a 3 to 5 page paper (i.e., type-written, double-spaced, 12-point font) that summarizes your observation using material from the course.

For the second project, you are asked to keep a personal humor journal where you periodically record your observations of humor in society. Using material from the course, tell me in a 3 to 5 page paper (i.e., type-written, double spaced, 12-point font) what your journal observations reveal about humor in society.

For the third project, you are asked to write a stand-up comedy routine and perform it in class. The performance should last 3 to 5-minutes. In addition to your written routine, explain in a 3 to 5 page paper (i.e., type-written, double-spaced, 12-point font) how your script/routine resembles, or fails to resemble, some of what you have learned in this humor course.

**Grading scale:** Each component of the course is worth 100 points, for a total of 600 points.

- **A** = 540+, 90.00% +
- **B+** = 510 – 539, 85.00% - 89.99%
- **B** = 480 – 509, 80.00% - 84.99%
- **C+** = 450 – 479, 75.00% - 79.99%
- **C** = 420 – 449
- **D+** = 390 – 419, 70.00% - 74.99%
- **D** = 360 – 389, 65.00% - 69.99%
- **F** = Below 360, 60.00% - 64.99%
- **Below 360**

**Note on tests:** You are expected to show up for exams during the scheduled time, and to turn all work in on time. If for some reason (e.g., the outbreak of World War III, alien
abduction, personally bearing triplets, etc.) you are unable to take a scheduled exam or meet a deadline, please discuss this matter with me **BEFORE** (not the day) the exam is scheduled or the project is due. The instructor does not guarantee that missed exams or uncompleted projects can be made up.

**“Eighty percent of success is showing up.”** – Woody Allen

**Cheating or plagiarism:** I do not tolerate academic dishonesty. Any student observed cheating, taking credit for someone else’s work, or allowing others to take credit for his or her work will receive a zero grade on the test or the assignment. In addition, I will report the incident to university officials, whereby additional sanctions may be applied.

**“He who cuts his own wood warms himself twice.”** - Thoreau
HNRS 250: Special Topics in the Social Sciences:  
The Personal Presidency

Professor  
Alissa Warters, Ph.D.  
661-1616  
twarters@fmarion.edu

Course Description:  This course offers an examination of the non-institutional aspects of the American presidency that impact decision-making. The course invites students to analyze the institution from a president-centered perspective focusing on the character/psychology, rhetoric, leadership skills/style and family of presidents. In essence, this course evaluates how individual leaders put their stamp on the office. This course will focus on biographical, historical and political science literature that should foster vigorous group discussion.

Required Texts:

Reserve/BlackBoard Materials

Recommended:

Each student will benefit from refreshing their knowledge of current events. This may require reading a daily newspaper or watching the national news coverage on a daily basis. Examples from current events will be used frequently in class discussions. Therefore, the class discussions at-large will be enriched if each student is up to date on current events.
**WRITING ASSIGNMENTS:** Each student will be assigned to a group that will study one particular president over the course of the semester. Within these groups each student will be given a specific assignment to study the psychology/character, rhetoric, leadership or family of the assigned president.

Papers are due on the last day of class.

Further information on paper requirements is forthcoming.

**GROUP WORK AND PRESENTATION:** Each person assigned to a group will give a 10-15 minute presentation to the class about their aspect of the group assignment. The grade assigned will be based preparation and presentation of the material. Each student must be prepared to take questions from the class. Additionally, as part of this grade there will be an evaluation by the instructor and your group members toward the quality of your participation within the group.

**CLASS ATTENDANCE/PARTICIPATION:** Regular attendance and participation are essential to success in this course. The class roll will be taken on a regular basis. Students who are unprepared for class, who have not read their assigned readings, who are unable to answer questions about them, will be penalized as if they were absent or tardy.

**QUIZZES/REFLECTION PAPERS:** In lieu of formal exams, the instructor will give a series of quizzes to the class based on the readings and course material. Additionally, some readings will require reflection papers.

**GRADING FORMULA:** Paper = 25%; Group Presentation = 25%; Attendance/Participation = 25%; and Quizzes = 25%.

GRADING SCALE: The grading scale for this course is: 90-100 = A; 88-89 = B+; 80-87 = B; 78-79 = C+; 70-77 = C; 60-69 = D; 0-59 = F.

**Standard of Conduct and Academic Honesty:** To succeed in this course all students must follow the code of student conduct detailed in the Student Handbook on pages 133-134. This includes students doing their own work in class, which includes not committing plagiarism or cheating. Each student is responsible for informing his/herself about these guidelines and the procedures for adjudicating cases of academic dishonesty.

If you have questions about avoiding plagiarism either speak with the professor or visit the FMU Writing Center on the first floor of Founders Hall (661-1675).

**Note:** The professor reserves the right to make changes to this syllabus, as they become necessary.
Disability Services can be reached at 673-1828.

**TOPICS OF DISCUSSION:**

**Week One and Two: Introduction to the Institution of the Presidency/Constitutional Requirements and Roles:**
--Recommended reading: Pfiffner’s *Modern Presidency*.

**Week Three: Introduction to the Personal Presidency:**
Read: Gregory Hager and Terry Sullivan, “President-Centered and Presidency-Centered Explanations of Presidential Activity.” Blackboard.

**Week Four: Leadership Lessons of Modern Presidents:**

**Weeks Five-Seven: Presidential Psychology and Character:**
James Pfiffner, *The Character Factor: How We Judge America’s Presidents*.

**Weeks Eight and Nine: The Rhetorical Presidency**
Guest Lecturer: Dr. Meredith Love

**Week Ten and Eleven: The Role of First Ladies**
Guest Lecturer: Dr. Scott Kaufman

**Week Twelve: The Role of Presidential Children**

**Weeks Thirteen and Fourteen: Group Presentations/Final Papers Due**

This Course is Epic!

The Development of Western Civilization as viewed through
Primary Sources

Francis Marion University
Semester:
Section #:
Times:
Professor: Dr. Christopher Kennedy

I. Course Description
The course will be an appreciation of “Epics” and other works of literature in the Western Tradition as primary sources to be used in conjunction with lectures to examine various periods and peoples throughout the history of Western Civilization from the Ancient world through the Middle Ages and the Renaissance to the Enlightenment. Attention will be given to significant social, political, intellectual, philosophical, artistic and economic developments, which contributed to the formation of Western Civilization.

II. Course Objectives and Learning Outcomes
Each student taking this course will become familiar with the fundamental historical chronology and development of European History from the classical world to the early modern age. The course will explore the following salient topics and themes:

1. The meaning of History and its Study
   a. The use of Primary sources and Secondary sources
2. Ancient Civilizations and their legacies for Western Society
   a. Greek and Roman contributions (the classical legacy)
3. Medieval Europe
   a. Were they the “Dark Ages”?
4. The Three legacies that combined to produce European Civilization
   a. The Classical, Germanic and Christian
5. Medieval Society: Feudalism, Vassalage and Manorialism
   a. The Three “orders” of medieval society and their symbiotic relationship: Those who pray, Those who fight and Those who work
6. The social and economic developments of the High Middle Ages
   a. The rise of a 4th order – the Bourgeoisie
7. The disasters of the late Middle Ages
   a. Things Fall apart in the Medieval world: Famine, Plague and War
8. A hope for renewal:
   a. The early Italian Renaissance
      i. The northern Renaissance and Christian Humanism
9. The Scientific Revolution
   a. The development of the modern mind-set
10. The Rise of the “New Monarchies” and the State
11. The Age of Discovery
12. The Reformation and Counter-Reformation on the continent
   a. The Wars of Religion
13. The Reformation in England
   A. A religious or a political event?
14. The development of a Constitutional Monarchy in England
15. The creation of an Absolute Monarchy in France
16. The Enlightenment and the dawn of a new world view
   a. The Philosophes and the “Age of Reason”

III. Course Texts

Works to be explored include the following:
The Epic of Gilgamesh, Homer’s Iliad and Odyssey, Plato’s Symposium and The Apology, Thucydides The Peloponnesian Wars, Aristophanes’ Lysistrata, Virgil’s The Aeneid, Boethius’ The Consolation of Philosophy, Beowulf, Einhard’s The Life of Charlemagne, The Song of Roland, Dante’s The Divine Comedy, Boccaccio’s The Decameron, Chaucer’s The Canterbury Tales (Prologue), Machiavelli’s The Prince, Shakespeare’s The Tempest and Hamlet, Cervantes’ Don Quixote, Milton’s Paradise Lost, Sir Thomas More’s Utopia, Swift’s Modest Proposal and Voltaire’s Candide.

Note * Lecture Outlines will only be available on Blackboard, please download and print off prior to class

V. Semester Calendar and Readings

Introduction, Syllabus, the meaning of history, (HWS 3-6)

How to read a primary source? Using the terms culture, civilization, the meaning of western civilization

Prehistory, the Earliest Civilizations, The rise of Mesopotamian Civilization (HWS 6-16, 24-31)

Small Kingdoms and Mighty Empires in the Near East (HWS 32-53)

SEMINARY DAY: The Epic of Gilgamesh

The first Greeks: Minoan and Mycenaean Civilizations (HWS 54-60)

SEMINARY DAY: Homer’s The Iliad and Odyssey

Classical Greece: The Persian Wars, Golden Age of Pericles, (HWS 60-83)

SEMINARY DAY: Plato’s Symposium and The Apology

Classical Greece: The rise of the city state, Athens and Sparta, The Peloponnesian War (HWS 70-93)

SEMINARY DAY: Thucydid’s The Peloponnesian Wars AND Aristophanes’ Lysistrata

The Etruscans and the Rise of Rome (HWS 124-133)

Rome: from Republic to Empire (HWS 133-161)

SEMINARY DAY: Virgil’s The Aeneid

Late Roman Empire: the long Decline (HWS 161-189)

SEMINARY DAY: Boethius’ The Consolation of Philosophy

EXAM ONE The Ancient World

The Germanic Legacy: The Birth of European civilization (HWS 191,192,207-215)

SEMINARY DAY: Beowulf

Merovingians & Carolingians: political organization in the early Middle Ages (HWS 232-252)

SEMINARY DAY: Einhardt’s The Life of Charlemagne

Feudal Society I: Feudalism, Vassalage & Manorialism (HWS 203-206,252-263,294-329)

The Crusades (HWS 265-293) and Medieval Weapons, Warfare and Castles
SEMINAR DAY: The Song of Roland

Feudal Society II: new developments in society, the rise of trade, cities, urban life (HWS 346-372)

SEMINAR DAY: Dante’s The Divine Comedy

Art and Architecture of the Medieval Period
The Late Middle Ages: Decline, Disease and Disintegration (HWS 378-408)

SEMINAR DAY: Boccaccio’s The Decameron

EXAM TWO  The Medieval World

From the Medieval to the Modern: a New World view (HWS407-411)

SEMINAR DAY: Chaucer’s The Canterbury Tales (Prologue)

Renaissance: Revival, Recovery and Rebirth (HWS 412-441)
Renaissance Society, Government, Art and Architecture

SEMINAR DAY: Machiavelli’s The Prince

The Scientific Revolution, New Monarchs, and Voyages of Discovery (HWS 441-447,488, 502-527)

    The Reformation and Counter-Reformation on the continent (HWS 450-473,476-487)

SEMINAR DAY: Shakespeare’s The Tempest AND Hamlet

The Reformation and the State: Politics and the Wars of Religion (HWS 489-502)

SEMINAR DAY: Cervantes’ Don Quixote

England and the creation of a Constitutional Monarchy (HWS 531,532, 548-555)

SEMINAR DAY: Milton’s Paradise Lost

France and the development of an Absolute Monarchy (HWS 530-544, 562,563)

SEMINAR DAY: Sir Thomas More’s Utopia

The Age of the Enlightenment and the Philosophes

    Enlightenment thought applied to Society

SEMINAR DAY: Swift’s Modest Proposal and Voltaire’s Candide
Concluding thoughts

EXAM THREE  The Early Modern World

**VI. Contact Information**
Dr. Christopher Kennedy
Office: Room 205 FH
Office Phone: 661-1557
12:30pm
E-mail: cKennedy@Fmarion.edu

**Office Hours**
MWF 9:30am to 10:30am
MWF 11:30am to TTR 8:15am to 9:45am

**VII. Academic Support Network**
The Tutoring Center: is a free service provided to students. It is located in the Study Hall of the Housing office Building. Call 661-1675 for information.

The FMU Writing Center: offers tutoring services and writing workshops. It is located in Founders Hall 114-C. Call 661-1528 for more information

**VII. Additional information**
Class Attendance Policy: Attendance at classes is strictly required. Students should notify the professor, if for reasons beyond their control, they will be absent from class for any extended period. There will be No make-ups given for unexcused absences. Attendance and participation throughout the semester will be graded upon, amounting to 10% of your final grade.

Examinations: The Examination format will consist of objective, fill-in, matching, and short identification as well as essays and some map questions. You will be informed what the exam format will be on the lecture day prior to the exam. Unit One and Unit Two Exams will only cover that Unit’s information. The Final Examination will cover the material since the Unit Two Exam as well as Major Themes covered in the course of the semester.

Seminar Day reading and response papers: These are response papers to selected readings.

Please purchase the texts, or see the Blackboard website to download the readings and find the questions for you to reflect upon. These Papers should be typed with a cover page and as long as you feel you need to adequately answer the questions. If citing from a relevant text, please use parenthetical references.
Of the 18 Seminar Days, each student will be required to submit for a grade only 8 Seminar Day Papers. (they are each worth 5% of your total grade for 40% overall)

Please come prepared to discuss the readings even if you do not submit a Paper on them.

The Seminar Day papers are due on the day as indicated in the semester calendar when we shall discuss the readings.

**Please Note:** No papers will be accepted after the Seminar Day. If you do not hand in a paper for a particular Seminar Day then you will have to complete a paper for the next until you have submitted all EIGHT (8) Discussion Day Papers. Please do not fall behind in your submissions of these papers.

**Assigned Readings:** During lectures and most importantly on Seminar Days references will be made to assigned readings from the required texts/documents. It is expected that these readings will have been completed before class. Please print out those readings posted on web links and bring the “hard copy” and/or text to class. Failure to read your assigned texts makes the discussion impossible and diminishes the learning experience for yourself and others.

**Course Web Page:** Each student will have to enroll themselves into the course via the “Blackboard” web-based education system. The System contains such valuable information as class announcements, course documents such as the syllabus and reading list for discussion-days, as well as Lecture Outlines.

**Academic Integrity:** (please see related discussion pp. 133-34 in the FMU student handbook)
Plagiarism, just like cheating on an exam or a quiz, is an academic crime.

What is plagiarism?
Plagiarism is using others’ ideas and words without clearly acknowledging the source of that information. To avoid plagiarism, a student must not adopt or reproduce ideas, words or statements of another person without appropriate acknowledgement. A student must give credit to the originality of others and acknowledge an indebtedness whenever he/she does any of the following:

a) quotes another person’s actual words, either oral or written
b) paraphrases another person’s words, either oral or written
c) uses another person’s idea, opinion or theory
d) borrows facts, statistics, or other illustrative material, unless the information is common knowledge

**How to Avoid Plagiarism**

a) put in quotations everything that comes directly from a text, even when taking notes

b) paraphrase cautiously, do not just re-arrange a few words, but re-write the ideas in your own words and remember that paraphrases must still be acknowledged

c) be careful with information from the WWW sites, do not simply “cut and paste”

d) when in doubt, speak with me or consult the FMU writing center
HNRS 260: Special Topics in the Humanities: Existentialism: Freedom and Responsibility
Prof. Matthew Turner
Office: 234 FH
Email: mwturner@fmham.edu
Phone: 661-4695
Office Hours: Monday 1.30 - 3.00 pm, Tuesday 2 - 3 pm

Course Description:
Suppose, for a moment, that life has no meaning. What should we do with ourselves? What is the point of engaging in any sort of activity or project, for example, a relationship, an education, or a career? If there isn’t any point or purpose to these projects, then why should we spend so much energy in pursuing them? Although we may speculate about what happens to us after we die, no one really knows what happens. And if death is the ultimate end, then our lives appear to be as Shakespeare’s Macbeth has it, “a tale told by an idiot, full of sound and fury, signifying nothing.” But many of us will claim, however, that there is meaning and purpose to these projects – they do have value. But what gives them their value? According to the existentialist, there are many traditional sources of value for us: family, religion, country, and culture, among others. Yet many of these sources of value are arbitrary – they are imposed on us, merely by virtue of the fact that we happened to be born into a community and society that holds and instills those values. So what makes these values the ones to hold? Existentialists argue that the real values one ought to hold cannot be imposed from outside, but rather must in some sense be chosen by us. A problem thus arises: if value must be determined by each of us individually, and external sources of value are suspect, what is there to guide us in deciding what to do with ourselves? Further, there is a deep sense that, because we are free to choose our values, we bear the responsibility for the choice. Although this kind of choice seems at first glance harmless and welcome, existentialist philosophers all stress the immense significance and difficulty of bearing this responsibility as a human being.

In this course, we will look at the connection between freedom and responsibility as seen through the lens of existentialist philosophy and thought. We will begin by discussing the traditional problem of freewill before embarking on the existentialist response to it. In the process, we will have the opportunity to study the interrelationships between a number of concepts: freedom, responsibility, self, value, morality, truth, and our relationship (or lack thereof) to God.

The course will take an interdisciplinary approach. Due to the existentialism’s focus on subjective personal experience, there is no one method of communication or presentation that completely represents the view. We will read fictional works and philosophy texts, as well as engage with other artistic representations of existentialist thought and influence, particularly music and film. Reading will include works from
Kafka, Dostoevsky, Kierkegaard, Nietzsche, Camus, Sartre, as well as shorter selections from other existentialist writers.

**Texts:**

**Evaluation:**

2 Exams (25% each)
2 Papers (4-6 pages each) (25% Each), or 1 final paper (10 – 12 pages), 50%

**About Grading**
My scale: 90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D, 59 and lower = F.

‘C’ represents work that is average. I give this grade to work that completes the course requirements. ‘A’s’ and ‘B’s’ are reserved for work that demonstrates more effort, depth, and polish. I am happy to work with you to get the grade that you want. Keep in mind that your grade is a function of your work.

**Academic Honesty:**
I have a zero-tolerance policy to incidents of academic dishonesty. This includes cheating and plagiarism. Any instance of academic dishonesty will result in a zero for the assignment, with no possibility of making it up, as well as the appropriate administrative documentation. Multiple instances will result in failure for the course. Please refer to the student handbook (pp. 132-134) for more specific information about Francis Marion’s policy regarding academic honesty.

**Disability Services:**
If you are affected by the impact of a disability, and require an accommodation, please feel free to come and talk to me in private to discuss your situation.

**Exams:**
Bring a blue book for exams.

**Attendance Policy:**
I expect you to come to class regularly. I do not have a policy that states that a certain number of absences results in immediate failure. However, I have learned from experience that students who come to class infrequently perform less well on assignments and exams. Therefore, it is in your best interest to come to class.

**Order of Readings:**

**Week 1:** Introduction to Existentialism, Freedom in the Ancient and Medieval World
Camus, “The Myth of Sisyphus,” in Marino, pp. 489 – 492
Pereboom: Selections from Aristotle, Augustine, Lucretius, Aquinas

**Week 2:** Freedom in Modern Philosophy
Pereboom: Selections from Spinoza, Hume and Reid

**Week 3:** Abraham, Isaac, and Moral Responsibility
Kierkegaard, Fear and Trembling: “Preface”, “Tuning Up”, “A Tribute to Abraham”, “Preliminary Outpouring”

**Week 4:** Kierkegaard: The Teleological Suspension of the Ethical; Despair and Sin
Kierkegaard, Fear and Trembling: Problems, I, II, & III
Kierkegaard, selections from The Sickness Unto Death, in Marino pp. 41 – 105

**Week 5:** Interlude: Film: *The Seventh Seal*

**Week 6:** A Critique of Morality
Nietzsche, On the Genealogy of Morality
Short Paper #1 Due

**Midterm Exam, In Class**

**Week 7** If There is No God, is Everything Permitted?
Dostoevsky, The Brothers Karamazov, Books 1 - 4

**Week 8** Rebellion, The Grand Inquisitor, and a Kierkegaardian Response to Nietzsche
Dostoevsky, The Brothers Karamazov, Books 5 - 8

**Week 9** Justice: From Without or Within?
Dostoevsky, The Brothers Karamazov, Books 9 - 12

**Week 10** Kafka: The Absurdity of the Modern World
Kafka, The Trial

**Week 11** Interlude: Film: Orson Welles’ *The Trial*
Week 12 Dasein and Being-toward-death
Heidegger, Being and Time, Introduction: I: 1, 4, 6; 2: 1-3

Week 13 French Existentialism
Sartre, “Existentialism” and selections from Being and Nothingness, in Marino, pp. 337 – 409
de Beauvoir, “The Ethics of Ambiguity,” in Marino, pp. 413 – 436
Camus, “An Absurd Reasoning,” in Marino, pp. 441 – 488

Week 14 Postlude: Film: Federico Fellini’s 8 1/2
Short Paper #2 Due / Long Paper Due

Final Exam TBD
FRANCIS MARION UNIVERSITY
DESCRIPTION OF PROPOSED NEW COURSE

Department/School  HONORS  Date  August 20, 2013

Course No. or level  HNRS 270-279  Title  HONORS SPECIAL TOPICS IN THE NATURAL

Semester hours  3 or 4  Clock hours:  Lecture 3  Laboratory 3 (optional)

Prerequisites  Membership in FMU Honors, or permission of Honors Director

Enrollment expectation  15

Indicate any course for which this course is a (an)
Modification  N/A  Substitute  N/A  Alternate  N/A

Name of person preparing course description: Jon Tuttle

Department Chairperson’s /Dean’s Signature ________________________________

Date of Implementation  Fall 2014

Date of School/Department approval: Approved by Honors Committee July 31, 2013

Catalog description:
270-9 SPECIAL TOPICS IN THE BEHAVIORAL AND NATURAL SCIENCES (3 or 4) (Prerequisite: membership in FMU Honors or permission of Honors Director.) Course topics may be interdisciplinary and cover innovative, non-traditional topics within the Behavioral and Natural Sciences. May be taken for General Education credit as a Natural Sciences elective. May be applied as elective credit in applicable major with permission of chair or dean.

Purpose:
4. For Whom (generally?): FMU Honors students, also others students with permission of instructor and Honors Director

2. What should the course do for the student?
   HNRS 270-9 will offer FMU Honors members enhanced learning options within the Behavioral and Natural Sciences beyond the
common undergraduate curriculum and engage potential majors with unique, non-traditional topics.

**Teaching method/textbook and materials planned:** Lecture, seminar-style discussion, optional lab component.

**Course Content:** See attached proposed syllabus.

*When completed, forward to the Office of the Provost.*
Skepticism and the Scientific World View  
(HNRS 270: Special Topics in the Behavioral and Natural Sciences)  
Francis Marion University

Instructor: Travis Knowles  
Office: MSB 201-H  
Contact Info: tknowles@fmarion.edu  
Office hours: TBA  

Required books:  
* How to Think About Weird Things  
  (6th ed.) by Schick and Vaughn.  
* Mistakes Were Made (but not by me) by Carol Tavris and Elliot Aronson.  

Essential resource: http://www.skepdic.com

"Extraordinary claims require extraordinary evidence." — Carl Sagan

The purpose of this course is to introduce you to the methods of science, and especially to its foundational philosophy of *scientific skepticism*. Our goals are to learn the techniques for detecting pseudoscience; to examine pseudoscientific claims with skeptical thought; and to explore the limits and biases of personal experience and memory. We will also discuss the value of a skeptical approach to the human experience in general.

Through reading assignments, we will explore many thought-provoking, and perhaps surprising, topics, including the limited usefulness of eyewitness testimony; how really smart people can be fooled by their own pre-existing biases; the most widespread and reason-resistant logical fallacies; why hoaxes, conspiracy theories, and cryptozoological beasts remain among our most powerful and enduring delusions; and how not to be taken in by charlatans. What do you know (or think you know) about “Power Balance” performance technology; séances and “talking to the dead”; ghost hunters; ESP; Bigfoot and Nessie; homeopathic and other “alternative” medicine; alien abductions; and 9-11 being an inside job? We’ll discover the one factor that all these purported phenomena have in common: biased belief. Exploring the nature of those many biases forms the core of our class.
In addition to lectures and discussion, we will also explore the importance of *double-blind* *controlled testing*, the gold standard of scientific inquiry. If volunteers are available, one or more claimants of extraordinary ability (e.g., dowsing for lost objects, clairvoyance, etc.) will be put to the test, using double-blind, controlled experiment. Such testing will be entirely voluntary, and must meet pre-approval of the University’s Institutional Review Board on testing human subjects. In addition, any such testing will be conducted in a completely professional and respectful manner. If no volunteers are forthcoming, class members are welcome to try their luck at demonstrating their own such extraordinary abilities!

The class is designed to be reading- and discussion-based. There will be weekly assignments from the texts, as well as other articles, web pages, blogs, podcasts, and/or in-class videos. Check the class web page at <https://blackboard.fmarion.edu> for updates and specific assignments not on this syllabus.

We will attempt to follow this tentative schedule:

<table>
<thead>
<tr>
<th>Date</th>
<th>Topic/Assignment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aug XX</td>
<td>Introduction</td>

<td>Final Exam (11:45 a.m. – 1:45 p.m.)</td>
</tr>
</tbody>
</table>

It is a good idea to get ahead in the reading assignments. Start reading the Schick and Vaughan text, and Tavris and Aronson’s *Mistakes Were Made* well in advance of the discussion dates.
Important dates to remember:
November X-X: Fall Break (no classes)
November XX-XX: Thanksgiving Holiday (begins at 12:30 p.m., Nov. 24)
September XX: Last day to withdraw from a course without academic penalty
November XX: Last day to withdraw from a course (with grade of “W” or “F”)

Grading: Your grade in this class will be based on three components:

1) Attendance and participation (20%). I will be looking for evidence that you have completed the reading assignments. The class will be discussion-based, and we will keep the tone relaxed and conversational. I want you all to contribute to the discussion without fear or apprehension about whether you are “right or wrong.” I will look for evidence of your reading through a variety of mechanisms, including classroom participation and occasional brief writing assignments. I will also ask for student leaders to help me with book and assigned paper discussions. Finally, all in-class interactions must be civil in nature. Violations are grounds for temporary or permanent dismissal.

2) Two exams, a midterm and a final (50%, or 25% each). The exams will be in discussion format; the questions will be general and applied. For example, I may pose hypothetical situations and ask you to analyze them using the skeptical thinking “toolkit” we learn in class. I will assess the quality and strength of your arguments, not “right or wrong” answers. Please note the exam dates: October XX and December XX (during final exam week). Missing either exam will require written documentation of debilitating illness, or death in the immediate family.

3) An in-class presentation on a pseudoscience, hoax, or “extraordinary claim” of your choice (30%). You will research the claim using traditional and electronic sources, and analyze it using the “SEARCH” methodology from Schick & Vaughn. You will then prepare a PowerPoint presentation of 8-10 minutes in length to be presented during the final class periods. I will require in a list of the references you use (books, magazine articles, web pages), following a standard citation style, in advance of your presentation.

Attendance: Since attendance and participation are key grading components, it goes without saying that I expect you to attend class and to be on time. Out of respect for the class, please turn off all cell phones, texting devices, laptops, iPods, and other electronic devices during class time. Please do not schedule doctor’s (or other) appointments during class time.

Academic Integrity: “Violations of the academic integrity policy strike at the very heart of the University and the teaching and learning process” (FMU Honor Code). All cases of academic dishonesty, including cheating, will result in a grade of “zero” on the assignment or test at issue, and a report filed with the Office of the Provost. Review the Honor Code in the Student Handbook carefully.
HONOR 270/SPECIAL TOPICS IN THE BEHAVIORAL AND NATURAL SCIENCES:

**History of Science**

**Instructor:** Dr. Jeff Steinmetz  
**Office:** 201A MSB  
**Office Hours:** Tu: 10-11; Wed 1-3; anytime my door is open; and by appointment  
**e-mail:** jsteinmetz@fmarion.edu  
**Phone:** 843-661-1404

**Texts:**

**Course Info:**  
**Lecture:** MWF, 9:30-10:20,  
**Grading Scale:**  
- A=90
- B+=87
- B=80
- C+=77
- C=70
- D+=67
- D=60
- F≤59

**Requirements:**  
- Attendance 10%  
- Exam 1: 15%  
- Exam 2: 15%  
- Exam 3: 15%  
- Final Exam: 15%  
- Blackboard Quizzes*: 10%  
- Topic/References/Draft: 5%  
- Paper: 15%

*Note: Lowest quiz is dropped

**Course description:**

What exactly is science? When did science, as we understand it, begin? How has science changed over time? In this class we will explore the history of science, from historical, cultural, and scientific perspectives. Some of the questions we will explore this semester include: How has science progressed? What are some of the major revolutions in scientific thought and discovery? Who were the people behind these discoveries? Why did they occur when and where they did? How did they make their great breakthroughs? What were the cultural
and political ramifications of their discoveries? This class is designed to be accessible for non-science majors, so no previous science classes are required.

**Student Learning Objectives:**
Students who complete this course should know:
- What sciences is
- The scientific method
- Important figures and events in the history of science
- How science progresses
- How science has influenced society/culture and vice-versa

**FINAL EXAM: WEDNESDAY, December 4th, 8:30-10:30 A.M.**

**Attendance Policy:**
You are expected to attend class. Note that the class outline is tentative. Should you miss class, check with myself or a fellow classmate to see if there were any changes announced on the day you missed.

*Note that attendance counts towards the participation portion of your grade.* For each day that you have an unexcused absence, you will lose 3 participation points (out of 100). For each day that you are late, you will lose 1 participation point. According to FMU policy, **more than six unexcused absences can result in dismissal from the course and a grade of an F or W.**

If you choose to withdraw from the course, you are responsible for filing the paperwork with the registrar. If you need to miss legitimate reasons, it is your responsibility to provide documentation to avoid having an unexcused absence. For example, if you’re sick, get an official doctor’s excuse.

**Participation:**
- attendance, speaking during discussions, being on time, paying attention to ideas being discussed, contributing fully and equally to projects, etc.

**Classroom Behavior:**
In the class you are expected to treat your fellow classmates with respect and civility. Failure to do so may result in your being asked to leave the classroom. Repeated offenses will result in your dismissal from the course.

**Academic Honesty and Plagiarism:**
Every student is responsible for turning in his or her own unique assignments. Cheating and plagiarism will not be tolerated in the classroom. **Depending upon the severity of the offense, you may receive an F for that assignment or an F for the entire course.** You will also be reported to the appropriate university office. A second offense results in suspension for one semester and a third offense results in expulsion from the university. If you are not sure what constitutes cheating or plagiarism, ask me before completing the assignment.

</tbody>
</table>
Late Work:
* Exams and quizzes must be completed on the assigned day.
* Any written assignment turned in late will be penalized **10% per day up to three days. After the assignment is three days late, I will no longer accept it and you will receive a 0 for that assignment.**

Other Policies:
• **NO CELL PHONES ARE ALLOWED IN CLASS.** If you are a parent or have a situation where your phone needs to be on, set it to vibrate and if you absolutely need to take the call step outside the classroom to do so.

Exams:
Exams will be given during regular class time. Thus you will have the full class period to complete the exams. They may consist of multiple choice, definitions, short answers and longer essays. Exams 1-2 will not be cumulative, but the final will be. The cumulative portion of the final will be drawn from your first two exams, so make sure you understand any question you missed!

Paper:
You will be responsible for writing one 12 page research paper as part of the course. The paper should include a minimum of 10 references, including at least 2 primary sources. For this paper, you should focus on one big scientific revolution and discuss: 1) What the revolution was, how it came about, and why the idea was so revolutionary, 2) What cultural, historical, scientific and/or political forces drove influenced the person or people involved in the breakthrough, and 3) what the cultural, historical, scientific and/or political ramifications of that discovery was. We will discuss the paper in more detail in class.

Accommodations of Disabilities
I am happy to make accommodations for students with special needs; however, you first must provide proper documentation from the Office of Counseling and Testing. You must also notify me of your needs one week prior to an assignment/quiz/test/etc. to allow time to arrange for the appropriate accommodations.
