# **Institutional Effectiveness Report Template**

Name of Program:	Department of Nursing - Pre-licensure BSN
Year:	2021-2022
Name of Preparer:	Dr. Rhonda Brogdon

## **Executive Summary of Report**

This report includes the mission of the Department of Nursing, which is in alignment with the School of Health Sciences and Francis Marion University. The baccalaureate nursing program has nine end-of-program student learning outcomes (EOPSLOs). These EOPSLOs are derived from the American Association of Colleges of Nursing (AACN) *The Essentials of Baccalaureate Education for Professional Nursing Practice*.

Direct assessment methods are identified for each of the nine student learning outcomes. Indirect assessments are identified for three of the nine EOPSLOs. For written assignments, a consistently high expected level of achievement was used: 95% of students will achieve a grade of 80 or higher on the assignment. A variety of assignments were utilized to evaluate student achievement including papers, presentations, projects, and clinical evaluations. All tools are appropriate to the traditional classroom and/or clinical setting.

All assessment methods were evaluated during the 2021-2022 academic year. Benchmarks were achieved for all criteria. The return rates of the Alumni Survey are low in EOPSLO 6, 8 and 9. The benchmarks and targets will remain unchanged and reevaluated in the next academic year (2022-2023).

## **Program Mission Statement**

The Mission of the Department of Nursing is "The Francis Marion University Nursing Program prepares graduates to function competently as caring professional nurses in a variety of healthcare settings. The program endeavors to instill in students the value of lifelong learning."

## **Program Learning Outcomes – Pre-Licensure BSN**

- 1. The BSN graduate will be prepared to utilize knowledge obtained through general education courses from physical and bio-psycho-social sciences, humanities, and nursing in providing holistic patient care.
- 2. The BSN graduate will be prepared to deliver competent, compassionate care to diverse clients across the lifespan.
- 3. The BSN graduate will be prepared to utilize healthcare technology and knowledge of healthcare policies to provide safe, cost-effective patient care.
- 4. The BSN graduate will be prepared to demonstrate leadership skills in communicating and collaborating with the interprofessional healthcare team.

## **Student Learning Outcomes (SLOs)**

(Derived from AACN's The Essentials of Baccalaureate Education for Professional Nursing Practice)

The baccalaureate generalist program in nursing prepares the graduate to:

1. Utilize the general education courses as the cornerstone for study and practice of professional nursing. (PLO #1)

- 2. Incorporate the knowledge and skills in leadership, quality improvement, and client safety in the provision of high quality health care. (PLO #4)
- 3. Provide safe, effective, and compassionate care to all individuals and groups across the lifespan based upon the principles and models of evidence-based practice, understand the research process, have the ability to retrieve, evaluate, and synthesize evidence in collaboration with healthcare team members to practice in a manner that improves client outcomes. (PLO #2)
- 4. Incorporate information management, client care technologies, and communication devices in providing safe and effective client care. (PLO #3)
- 5. Incorporate information on healthcare policies, including financial and regulatory, directly and indirectly influencing the nature and functioning of the healthcare system in professional nursing practice. (PLO #3)
- 6. Demonstrate effective inter-professional communication and collaboration through verbal, nonverbal and written communication skills to practice individual accountability, client advocacy, conflict resolution principles, and teambuilding strategies. (PLO #4)
- 7. Integrate knowledge and skill derived from the physical sciences, bio-psycho-social sciences, humanities, and nursing in the provision of holistic care to individuals, families, groups, communities, and populations across the life span with a focus on health promotion, disease and injury prevention. (PLO #1)
- 8. Demonstrate and utilize principles of legal ethical core values of professionalism with the application of professional values of altruism, autonomy, human dignity, integrity and social justice in the delivery of care to all clients across the lifespan. (PLO #2)
- 9. Utilize the roles of provider of care, manager/coordinator of care, and member of the profession in developing and providing safe, effective, and compassionate care to all clients across the lifespan with diverse multicultural needs. This includes but is not limited to cultural, spiritual, ethnic, gender and sexual orientation to diversity (AACN, 2008). (PLO #2)

#### **Assessment Methods**

1. Utilize the general education courses as the cornerstone for study and practice of professional nursing.

Assessment Method	Type of Assessment	Baseline 2020-2021	Benchmark 2021-2022	Target 2022-2023
Leadership	Direct	100% of	95% (or higher) of	95% (or higher) of
Presentation		students met	students will	students will achieve a
(NURS 419)		the benchmark	achieve a minimum	minimum grade of 82
			grade of 80 on the	(no change) on the
			Leadership	Leadership
			Presentation	Presentation in 1 year
			Rationale:	
			Since these are	
			graduating senior	
			students, the	
			expectation is that	
			the majority of them	

			will successfully meet the target	
Case Study (NURS 411)	Direct	100% of students met the benchmark	95% (or higher) of students will achieve a minimum grade of 80 on the Case Study  Rationale: Since these are graduating senior students, the expectation is that the majority of them will successfully meet the target	95% (or higher) of students will achieve a minimum grade of 82 (no change) on Case Study in 1 year

2. Incorporate the knowledge and skills in leadership, quality improvement, and client safety in the provision of high quality health care.

Assessment Method	Type of Assessment	Baseline 2020-2021	Benchmark 2021-2022	Target 2022-2023
Leadership Presentation (NURS 419)	Direct	100% of students met the benchmark	95% (or higher) of students will achieve a minimum grade of 80 on the Leadership Presentation	95% (or higher) of students will achieve a minimum grade of 82 (no change) on the Leadership Presentation in 1 year
			Rationale: Since these are graduating senior students, the expectation is that the majority of them will successfully meet the target	
Clinical Evaluation Tool (NURS 411)	Direct	100% of students met the benchmark	95% (or higher) of students will achieve a minimum rating of 3/5 or > on the Clinical Evaluation Tool  Rationale: The Clinical Evaluation Tool is a direct measure of	96% (or higher) of students will achieve a minimum rating of 3/5 or > on the Clinical Evaluation Tool in 1 year

	the SLOs; students	
	must meet the target	
	in order to pass the	
	clinical portion of	
	the course	

3. Provide safe, effective, and compassionate care to all individuals and groups across the lifespan based upon the principles and models of evidence-based practice, understand the research process, have the ability to retrieve, evaluate, and synthesize evidence in collaboration with healthcare team members to practice in a manner that improves client outcomes.

Assessment Method	Type of Assessment	Baseline 2020-2021	Benchmark 2021-2022	Target 2022-2023
Community	Direct	100% of	95% (or higher) of	95% (or higher) of
Project		students met	students will	students will achieve a
(NURS 418)		the benchmark	achieve a minimum	minimum grade of 82
			grade of 80 on the	(no change) on the
			Community Project	Community
				Assessment in 1 year
			Rationale:	
			Since these are	
			graduating senior	
			students, the	
			expectation is that	
			the majority of them	
			will successfully	
			meet the target	
Leadership	Direct	100% of	95% (or higher) of	95% (or higher) of
Presentation		students met	students will	students will achieve a
(NURS 419)		the benchmark	achieve a minimum	minimum grade of 82
			grade of 80 on the	(no change) on the
			Leadership	Leadership
			Presentation	Presentation in 1 year
			Rationale:	
			Since these are	
			graduating senior	
			students, the	
			expectation is that	
			the majority of them	
			will successfully	
			meet the target	

4. Incorporate information management, client care technologies, and communication devices in providing safe and effective client care.

**Discussion:** The benchmark was met for all assessment methods. The return rate on the Alumni Survey was only 20%, so that results are less reliable.

#### **Action Items**

- 1. Utilize the general education courses as the cornerstone for study and practice of professional nursing.
  - a. The target was not changed for methods A and B. I will continue to monitor the direct method of evaluation for baseline consistency.
- 2. Incorporate the knowledge and skills in leadership, quality improvement, and client safety in the provision of high quality health care.
  - a. The target was not changed for methods A and B. I will continue to monitor the direct method of evaluation for baseline consistency.
- 3. Provide safe, effective, and compassionate care to all individuals and groups across the lifespan based upon the principles and models of evidence-based practice, understand the research process, have the ability to retrieve, evaluate, and synthesize evidence in collaboration with healthcare team members to practice in a manner that improves client outcomes.
  - a. The target was not changed for methods A and B. I will continue to monitor the direct method of evaluation for baseline consistency.
- 4. Incorporate information management, client care technologies, and communication devices in providing safe and effective client care.
  - a. The target was not changed for method A. I will continue to monitor the direct method of evaluation for baseline consistency.

- 5. Incorporate information on healthcare policies, including financial and regulatory, directly and indirectly influencing the nature and functioning of the healthcare system in professional nursing practice.
  - a. The target was not changed for methods A and B. I will continue to monitor the direct method of evaluation for baseline consistency.
- 6. Demonstrate effective inter-professional communication and collaboration through verbal, nonverbal and written communication skills to practice individual accountability, client advocacy, conflict resolution principles, and teambuilding strategies.
  - a. The target was not changed for methods A and B and C. I will continue to monitor the direct method of evaluation for baseline consistency.
- 7. Integrate knowledge and skill derived from the physical sciences, bio-psycho-social sciences, humanities, and nursing in the provision of holistic care to individuals, families, groups, communities, and populations across the life span with a focus on health promotion, disease and injury prevention.
  - a. The target was not changed for methods A and B. I will continue to monitor the direct method of evaluation for baseline consistency.
- 8. Demonstrate and utilize principles of legal ethical core values of professionalism with the application of professional values of altruism, autonomy, human dignity, integrity and social justice in the delivery of care to all clients across the lifespan.
  - a. The target was not changed for methods A, B, C and D. I will continue to monitor the direct method of evaluation for baseline consistency.
- 9. Utilize the roles of provider of care, manager/coordinator of care, and member of the profession in developing and providing safe, effective, and compassionate care to all clients across the lifespan with diverse multicultural needs. This includes but is not limited to cultural, spiritual, ethnic, gender and sexual orientation to diversity
  - a. The target was not changed for methods A, B and C. I will continue to monitor the direct method of evaluation for baseline consistency.

#### **Summary of Action:**

A total of 21 benchmarks were met during the 2021-2022 academic year. As a result, no targets were increased for next year. Next academic year will be the fourth year in evaluating the indirect methods using the Alumni Survey. The results will be analyzed again to assess if the original benchmarks were set too high.

## **Appendix 1 – Rubric for Community Project (NURS 418)**

Students will work in groups of 3-4 and present in class. From your community assessment, identify a community health problem and devise an appropriate intervention - the more creative the better, but should be evidence-based.

Criteria	Percent
Introduction to the Problem/Background - relate to one of the <i>Healthy People 2020</i>	5%
topics	
Community Assessment:	30%
Incorporates all parts of the Anderson/McFarlane Wheel (give a brief overview of each part, but dig deep into data that relates to your community health nursing	
diagnoses)	
- Involves appropriate key informant interviews	

- Utilizes appropriate demographic/statistical data	
- Includes reflection regarding the community's personality/mood	
- Includes visit to local grocery store and/or pharmacy (may want to compare	
two from different parts of town)	
- Includes strengths and resources	
- Addresses health disparities	
Data Analysis/Additional Data Needed Identified; Priorities Identified (Priority	10%
Table); and Community Health Diagnosis using Risk of/Among/Related To/AEB	
Format	
Discussion of Evidence-Based Interventions (comes from group members'	10%
annotated bibliographies)	
Plan Appropriate Intervention including Measurable Goals/Objectives; be very	20%
specific about how you would implement this. How would community members be	
involved? What is a realistic timeline?	
Discuss how the project will be evaluated	10%
Conclusion/Recommendations for future projects/interventions/study	5%
References/APA	5%
Quality of Presentation (professional dress & demeanor, not reading from slides,	5%
eye contact, etc)	

## **Appendix 2 – Rubric for Clinical Evaluation Tool (NURS 411)**

## Francis Marion University Department of Nursing

#### CLINICAL EVALUATION TOOL - NURS 411: Adult Health III

COURSE:	SEMESTER:
STUDENT:	FACULTY:

- A formal final evaluation will be completed utilizing this tool by the clinical faculty to summarize the student's clinical performance by discussing strengths and areas for improvement.
- A formal mid-clinical evaluation will be completed ONLY if the student is performing unsatisfactorily.
  - A written learning contract will be developed identifying the areas that need improvement and strategies to assist the student in meeting the clinical learning outcomes;
  - o The learning contract must be signed by the student and faculty person (failure to sign will be a clinical failure); and
  - o If the stipulations of the written action plan are not met by the date and time identified, then the student may receive a clinical failure.
- If the student has any incidents of unsafe or unprofessional practice (critical incident) refer to the Department of Nursing Student Handbook for appropriate disciplinary action.

Rating Code: [Modified from: Bondy, K. (1983). Criterion-referenced definitions for rating scales in clinical evaluation. *J. of Nursing Ed.* 122 (9), 376 – 82]

- **P** = achieved a 3.00 or above in all learning outcomes at the end of the semester or clinical course.
- $\mathbf{F}$  = achieved below 3.00 in one or more learning outcomes at the end of the semester or clinical course.

Scale Label	Standard Procedure	Quality of Performance	Assistance
5 =	• Safe	• Proficient; coordinated; confident.	Without supporting cues
Independent	<ul> <li>Accurate</li> </ul>	<ul> <li>Occasional expenditure of excess energy.</li> </ul>	
		Within an expedient time period.	
4 =	• Safe	Efficient; coordinated; confident.	Occasional supportive cues
Supervised	<ul> <li>Accurate</li> </ul>	• Some expenditure of excess energy.	
		Within a reasonable time period.	

3 = Assisted	<ul><li>Safe</li><li>Accurate</li></ul>	<ul> <li>Skills in parts of behavior.</li> <li>Inefficient and uncoordinated.</li> <li>Expends excess energy.</li> <li>Within a delayed time period.</li> </ul>				atec		Frequent verbal and occasional physical directive cues in addition to supportive ones	
2 = Provisional	<ul><li>Safe but not alone</li><li>Performs at risk</li><li>Accurate – not always</li></ul>	<ul><li>Unskilled; in</li><li>Considerable</li><li>Prolonged tin</li></ul>	e exp	enc	liture	e of	exc	ess (	• Continuous verbal and frequent physical cues
1 = Dependent	<ul><li>Unsafe</li><li>Unable to demonstrate behavior</li></ul>	Unable to de     Lacks confid							behavior. nd efficiency.  • Continuous verbal and physical cues

3. Integrates current evidence into practice.								
a. Discusses evidence-based practice and research	ı							
involved in the holistic nursing care of patients	,							
families, and the community.								
b. Understands/applies knowledge of proper								
positioning and turning of patients to promote								
positive patient outcomes.								
c. Evaluates the effectiveness of nursing actions of	n							
patients and families.								

d. Interprets diagnostic/laboratory test results and analyzes implications affecting the patient's healthcare outcomes.	
e. Develop concept maps that show a thorough understanding of patient care needs.	
f. Demonstrates a thorough understanding of medications, including mechanism of action, effect, common side effects, and indications for use.	

	X	1	2	3	4	5	Comment
. Organizes knowledge and skill in information management and patient care technology to deliver quality care.							
a. Assembles pertinent information from the patient, patient records, information technology, and/or members of the healthcare team in order to develop a plan of care.							
b. Incorporates current technology in providing safe, effective patient care.							
c. Documents adequately and timely per agency policy for providing quality patient care.							
d. Accesses the Pyxis or medication administration record in a timely and organized manner to provide safe and proper medication administration.							
LEARNING OUTCOME #5							
	X	1	2	3	4	5	Comment

5. Reviews healthcare policies, including financial and regulatory, which directly and indirectly influence the nature and functioning of the healthcare system.	
a. Evaluates healthcare policies and financial constraints influencing the healthcare system and quality patient care.	
b. Participates in the computer based training for all clinical agencies to ensure adherence to the policies and procedures of each clinical site.	
c. Delivers care in a cost, effective manner consistent with quality patient care.	
d. Demonstrates knowledge and adheres to policies related to medication administration systems	

LEARNING OUTCOME #6								
	X	1	2	3	4	5	Comment	
6. Employs communication and collaboration am	ong							
healthcare professionals, which is critical to								
delivering high quality and safe patient care.								
<ul> <li>a. Recognizes importance of effective inter- professional communication and team collaboration to enhance patient advocacy improve delivery of care to patients, famil and communities.</li> </ul>								
<ul> <li>Collaborates effectively with all healthcar members involved in patient care in a logi concise, and accurate manner.</li> </ul>								

c. Maintains patient confidentiality in all forms of							
communication.							
d. Communicates appropriate and/or critical							
information to faculty/staff in a timely manner.							
e. Participates in post conference or a care							
conference

	X	1	2	3	4	5	Comment
8. Demonstrates professionalism and the inherent							
values of altruism, autonomy, human dignity,							
integrity, and social justice which are fundamental							
to the discipline of nursing.							

a.	Applies principles of legal core values of nursing and social justice in the delivery of patient care.			
b.	Discusses ethical issues involved with patient care and their implications on the patient, family, and society.			
c.	Behaves professionally and abides by the Department of Nursing student policies as listed in the Student Handbook.			
d.	Arrives to the clinical site in a timely manner to provide consistent patient care and dresses in professional attire for the clinical day.			
e.	Utilizes constructive criticism and changes behavior accordingly.			
f.	Abides by the ANA Code of Ethics and established guidelines of the SC Nurse Practice Act.			

LEARNING OUTCOME #9								
	X	1	2	3	4	5	Comment	
9. Applies nursing care across the lifespan and across								
the continuum of healthcare environments and								
understands and respects the variations of care, the								
increased complexity, and the increased use of								
healthcare resources inherent in caring for patients.								
a. Provides safe, compassionate nursing care to								
patients, families, and the community with								
diverse multi-cultural needs to improve the								
quality of health and patient outcomes.								

b.	Understands/applies cultural competence and sensitivity to patients and families in the clinical setting.									
c.	Demonstrates initiative to seek out information and use pertinent resources for improving knowledge in providing compassionate care to patients/families.									
d.	Organizes care to competently and safely manage care for 4 patients
