IV. Academic Affairs

1. Proposal from the Nursing

A. Add, on page 132, of the current catalog:

NUR 212 Care of Children in Abusive and Neglectful Environments This elective course is designed to develop and improve knowledge about child abuse and neglect. It will promote knowledge development through on-line discussions, reflections, case studies, and critical thinking activities. The topics will focus on children and issues involved in maltreatment, risk factors for the victims and perpetrators, assessment findings, cultural beliefs and customs within families, mandatory reporting, and the care/safety of suspected abuse victims.
