GRADUATE COURSES

Admission Requirements & Procedures

Students who wish to undertake graduate study are admitted either as graduate degree students or as graduate non-degree students. While most students are degree-seeking, the provision for non-degree students accommodates those wishing to meet professional requirements to master specific course content without working toward a master’s degree. In either case, the Graduate Application for Admission must be submitted if you did not attend the previous regular semester, and the application fee must be paid if it has not previously been paid. For further information regarding graduate admission, consult the catalog or undergraduate catalog.

Registration

Graduate students may be advised and preregister on any day during the preregistration period, during Open Registration and Late Registration. See registration dates and times at the beginning of this course schedule.

TRANSCENDENT STUDENTS – Degree-seeking students enrolled in graduate studies in colleges and universities other than Francis Marion University who wish to take graduate courses at Francis Marion University must complete the following steps:
1. Complete the Graduate Application for Admission and submit to the Graduate Office.
2. Present to the Graduate Office a transfer permission form from their graduate dean or coordinator of graduate studies.
