

Annual Reporting Measures

Satisfaction of Completers

Component 4.4

Completers from the Francis Marion School of Education teacher preparation program indicate through survey data that they are satisfied with their preparation. The chart below provides this information for the years 2017-2018, 2018-2019, and 2019-2020 from completers who responded to the surveys.

As is reflected by the data in the chart, 2017-2018 was the only year in which completers tended to be less than very satisfied with their preparation, but were still satisfied. Throughout the three years that this data reveals, only 3 out of the total of 47 (6%) respondents indicated anything less than satisfied with the EPP.
