

Francis Marion University Dual Credit Spring 2021

Francis Marion University offers dual enrollment courses to qualified students both in-person at The Continuum and online. In-person courses meet twice/week for 75 minutes; labs meet in-person once/week.

To apply as a new student, visit www.fmarion.edu.

Continuum – Face-to-Face Courses

BIOL 104 Human Biology (4 credit hours) – Lecture ONLINE; Lab – Face-to-Face once/week
Basic biology of humans and how to interpret emerging technologies such as DNA fingerprinting and genetic engineering. The process of doing science is emphasized. This course includes both lecture and lab.

BUSI 150 Introduction to Business (3 credit hours)

Introduces the fundamental functions and activities of modern business organizations. Topics include: an overview of the economic system, accounting and record keeping, marketing, management, finance, information systems, legal issues, business ethics, and international business. In addition, careers in business and entrepreneurship are considered.

CS 150 Microcomputers and Software Applications I (3 credit hours)

Introduction to microcomputer hardware and software. Topics include computer fundamentals, word processing, electronic spreadsheet, databases, and other microcomputer application areas. Solutions for several problems using microcomputers and commercial software will be required.

ENGL 102 Rhetoric, Genre, and Research (3 credit hours)

The grade of C or higher in English 101 is required for the student to advance to English 102.
Complex composition assignments involving rhetorical strategies, critical reading, and formal research. Practice performing multiple research methods, evaluating and documenting sources, synthesizing research, and developing original arguments. Emphasis on analyzing genre to inform writing strategies and research methods, preparing students to transfer knowledge about genre and composition to other writing contexts.

ENGR 201 Engineering Graphics (3 credit hours) – *tentative*

Students are introduced to the fundamental principles of engineering graphics – sketching, line drawing, projections, and solid modeling. Students will learn how to apply engineering graphics principles to generate and interpret technical drawings and solid models. Computer Aided Design software (such as AutoCAD and Solidworks) will be used.

HIST 102 United States History Since 1877 (3 credit hours)

(Students must take HIST 101 and HIST 102 to receive the high school U.S. History credit.)
General survey of the United States from 1877 to the present, emphasizing major political, economic, social, and intellectual developments.
