

Francis Marion University

Sole Source Statement of Award

Posting Date: **9/16/2022**

This is a statement of award of a contract effective **September 13, 2022** unless otherwise suspended or cancelled.

Contractor should not perform work or incur any costs associated with the contract prior to the effective date of the contract. Contractor should not perform work prior to the receipt of a purchase order from Francis Marion University. The University assumes no liability for any expenses incurred prior to the effective date of the contract and issuance of a purchase order.

Sole Source:

Francis Marion University purchased proprietary fire alarm equipment needed to maintain and update the University's fire alarm panels in Rogers Library and the University Center in October 2021. Since issuance of that purchase order, the University has worked with vendor, Johnson Controls (DBA Tyco Fire & Security (US) Mgt.), to maintain and upgrade the University's Simplex Grinnell 4100 network system, which is a proprietary network.

With the University's entire fire alarm system comprised of the aforementioned proprietary network and equipment, a move to a different vendor and an overhaul of the University's entire fire alarm system would require a major investment in new infrastructure, extensive time and training requirements, and potential liabilities when considering the life-safety issues involved. At this time, the University is in the process of maintaining and upgrading the Rogers Library and University Center fire alarm panels and network. Roughly 75% of the original project has been completed and payment remitted. Thus, this notice of intent to sole source is for the additional parts/equipment, labor, and installation needed to complete the maintenance and upgrades. The cost for the proposed additional goods and services required is: **\$14,591.00**.
