

Notice of Intent to Sole Source

Posting Date: May 30, 2023

Francis Marion University seeks to sole source the procurement of cable television service for the University.

Current situation:

Francis Marion University purchased TV cable and fiber infrastructure in 2012. Since that time the University has operated under contract with Time Warner Cable / Spectrum Enterprise.

Intent to Sole Source:

Spectrum / TWC has been providing cable service to the University since the cable infrastructure was installed in 2012. A move to a different vendor for television service to the University would require a major investment in new infrastructure before consideration for the cost of service could be made. The University had expected to install a set of Wireless Access Points in the residence halls to be complete by the end of 2022. However, supply chain issues have postponed this completion to the end of 2023. Upon installation and testing of these WAPs to determine the maximum internet bandwidth that can be provided to the students, the University will revisit television service options including alternatives to cable. The cost for the proposed period of cable service to the University (July 2023 through June 2024) is \$96,064.80.
